

Extensive Repair, Maintenance Work Slated in Local Schools

Extensive repair and maintenance work is slated for buildings of the Salem school district this summer, with emphasis on lighting and heating improvements, according to M. H. Drake, buildings and grounds superintendent. A large portion of the needs are in schools recently consolidated into the Salem district.

Some of the projects, said Drake, have been delayed from past summers because of inability to get some equipment, principally for heating. The maintenance staff of 45 men, including for the summer all school janitors, has already begun the vacation work.

The 1947-48 budget provides \$34,155 for maintenance and repair. Other projects, not handled by school employees, include preparation of the new heating plant for senior high and Parrish junior high schools, for which contracts were awarded Tuesday night.

New fluorescent-type lighting has been installed at Highland and Riecke grade schools to put classroom illumination at 40 foot-candlepower, well above standard requirements, said Drake. Other schools to get new lighting are Englewood, Pringle, Auburn and West Salem.

Wood-burning furnaces are to be replaced by oil-burning equipment at Leslie junior high, Garfield and Auburn grade schools.

Two basement classrooms are to be readied at West Salem, for the new junior high, and a quonset hut will be equipped as a shop.

A new floor will be laid at Pringle school. McKinley will be completely redecorated inside. Gymnasium floors in all schools are to be refinished.

Silverton—Mr. and Mrs. John Kleebe will leave early in July for San Francisco where Mr. Kleebe has accepted a transfer to the Bay area with the Federal Home Loan Bank administration. They

have found a home temporarily in Berkeley and are planning to sell their home here.

County Seeks To Buy Site for Garbage Dump

An agreement to purchase a \$2,500 site for establishment of a county garbage disposal plot is now contingent on final approval of the county budget committee June 27.

At that time all items in the budget will be given final approval, Marion County Judge Grant Murphy said. The budget had appropriated \$5,000 for establishment of the dump grounds.

After purchase of the site a meeting of all representatives of towns in the north end of the county to be served by the disposal system, will be called by the court, Judge Murphy said. He added that the court had made no further commitments either as to contract or type of dump to be operated.

The 12-acre plot is located about three miles northwest of Woodburn where county road 505 is crossed by Seneschal creek. It will serve the towns of Woodburn, Gervais, Donald, Broadacres, Hubbard and Aurora.

Mobile X-Ray Unit to Survey Workers Here

Beginning next Tuesday, a state board of health mobile X-ray unit will survey workers in Salem canneries, other industrial plants and the farm labor camp during the remainder of the month.

The unit was brought here in cooperation with the local canneries union and other Salem industries. Chest X-rays to determine prevalence of tuberculosis and other diseases will be taken by the unit.

The schedule includes: June 17, 1 to 5 p. m., Kay Woolen Mills.

June 18, 10 a. m., Paulus Brothers new plant.

June 19, 10 a. m., Starr Fruit products, and 1:30 p. m., at Dairy Cooperative plant.

June 20, 2 to 8 p. m., United Growers, Liberty.

June 23, 2 to 8 p. m., Williamette Cherry growers.

June 24, 9 to 12 a. m., Miles Lines Mills, and 2 to 4:30 p. m., at Producers Cooperative.

June 25, 9 to 12 a. m., Western Paper Converting Co., and 2 to 3 p. m., at Hunt Foods.

June 26, 2 to 8 p. m., Kelly, Farquhar, Tile road plant.

June 30 and July 1, 3 to 8 p. m., at farm labor camp.

Two-Headed, Almost, Cat Born in New York

NEW YORK, June 12.—(AP)—A two-headed cat with four eyes, two mouths but only two ears was born today to a cat owned by Mrs. Emil Mason in Howard Beach, Queens. The kitten, one of a litter of five, is alive and apparently in good health, Mrs. Mason said.
