Myrtle Track 'Finest'

Midget auto racers zip around the quarter-mile Jantzen beach arena in around 16 or 17 seconds.

The record there is 15.55, which when analyzed critically leaves no impression other than that the wee buzz buggies actually fly low. Jud Fuller, president of the Oregon Midget Racing association, in town for last Sunday's big car program at the fairgrounds, sneaked out to Otto Klett's new Myrtle Bowl while here and what he saw there in the raw had the man actually raving over its possibilities. Said Mr. Fuller, and quite impressively: "When this track is finished and paved I'll bet you anything I've got our drivers will go around it so fast look like its standing still. They should be able to make this one in 14 seconds flat, because the turns will be wider. You'll see Marlowe, Frey passing on the turns as well as on the straight-away, and I'll also bet Top OGA Play that not long after it opens this track will be absolutely the finest on the Pacific coast, barring none.
