

Marion County Assessment Rolls Unfiled

Although most of Oregon's counties in reporting their property assessment rolls to the state tax commission showed about 15 per cent increase in their rolls over last year, figures for Marion county were unavailable Wednesday as this county's rolls have not yet been filed. Marion County Assessor Tad Shelton indicated this week that, among other factors, this county's assessment rolls were being delayed because of late-incoming school budgets. Six other counties, including Polk, have not filed their rolls with the tax commission. Increases in the 29 counties reporting totaled more than \$116,000,000. The assessment roll total was \$1,120,333,779 last year. The \$892,907,997 roll in 1936 was lowest state mark since the high mark of \$1,125,169,592 in 1930. The state board of equalization has until July 11 to review the assessment rolls. One of the outstanding tasks of the board of equalization, now in session here, is to place a true cash assessment on all public utilities of the state and then allocate the assessment rates to the counties in which utility projects are located.

Council Seeks World Police Size Estimates

LAKE SUCCESS, June 25—(AP)—The United Nations security council tonight asked the big power military staff committee to try to give a tentative estimate by next Monday on the initial size of the global police force needed to preserve world peace.

Council President Alexandre Parodi, of France, announced that he was sending the request to the military committee despite Russian and Australian declarations that the committee was being given an "impossible" task.

Australian Delegate Col. W. R. Hodgson expressed belief that the question involved the most important political issue in the entire plan to set up the security force: "Is the force to be large enough to be used against one of the big powers?" Parodi said this question was not involved, however, since the estimate was to cover only the size of the initial force. This, he said, did not preclude a later estimate on an entirely different basis.

Mother Held for 'Miss X' Assault

YREKA, Calif., June 25—(AP)—The vicious beating and abandonment of 2-year-old Mary Jane Meddin — for 10 days known only as little "Miss X" at Siskiyou General hospital — culminated today in the arrest of her mother, Mrs. Lucille Meddin, 22, of Selma, Ore., and Hugh Gilreath, 25, who came to Oregon last year from Jellico, Tenn. Gilreath told State Police Sgt. C. R. Borgman that the couple discussed "disposing" of Mary Jane when Mrs. Meddin — separated from her husband — entered a hospital in Grants Pass as "Mrs. Gilreath" to have her third child. "There were too many kids around," Sergeant Borgman quoted Gilreath.

Crop Insurance Cut Recommended By Senate Group

WASHINGTON, June 25—(AP)—Legislation to curtail the federal crop insurance program was approved today by the senate agriculture committee.

Insurance for producers of wheat, cotton, and flax, now provided on a national basis, would be limited to a specified number of counties. Directors of the insurance corporation, who are officials of the agriculture department, would designate the counties to be covered by insurance.

Insurance would not be provided in any county unless application was made by at least 200 farms, or one-third of the farms normally producing the insured commodity.

The program for wheat would be restricted to a total of 633 counties and for flax to 87 counties.
