

Moslem-Hindu Slayings Said In Thousands

LAHORE, Pakistan, Aug. 20—(AP)—Gen. T. W. Rees, commanding a joint military border force here, said today he believes underground leaders are waging a systematic program of extermination in riot-torn Punjab where the best computations indicate thousands of Indians have been killed since August 11. Fighting has stopped in Lahore, former capital of Punjab province, and in neighboring Amritsar, across the border of the divided province in Hindu India, the second trouble spot. But Lahore's Moslems have slain or driven away the vast majority of the Hindu and Sikh population which once represented about half the population of this city of 500,000. In Amritsar, the Sikhs and Hindus have killed or driven out practically all Moslems who once composed about half the population of 500,000 there. A tour of Amritsar disclosed street after street of buildings ruined as though in an air raid. A similar picture is presented by Lahore.

Farm Office Staff Shifts

Salem will gain two new families with changes announced in the county farmers' home administration office, 400 N. High st., serving Marion and Polk county farmers. Eugene Hampton, former state water facility specialist for Oregon and former county supervisor at Pendleton, will replace Raleigh Carothers, former county supervisor, who is now in charge of on-the-job training for agricultural veterans at Dayton. Bill Staats, information specialist and administrative assistant in the Portland office since 1935, has joined the Salem staff as collection and security servicing officer for five counties, including the Albany and Eugene offices. Staats already has purchased a home in the Keizer district.

Princess Margaret, Made Colonel at 17

BALMORAL, Scotland, Aug. 20—(AP)—King George VI conferred on his second daughter, Princess Margaret Rose, tonight her first military title as colonel-in-chief of the Highland light infantry. The Scottish-born princess will be 17 years old tomorrow and will make her debut at a party in Balmoral castle where the royal family is on vacation.

City Hall Phone Digits Changed; Emergency Fire Calls Unaltered

City Manager J. L. Franzen announced Wednesday that new telephone numbers for city offices will become effective today to be handled through the newly completed city police, fire and first aid switchboard. By dialing the new number, 2-4191, persons phoning the city hall may contact any one of the various city offices, including the police and first aid departments, Franzen said. Fire alarms, however, should still be given by calling either 3144 or 3145, he added. Separate fire department lost time in reporting a fire in the event the other city telephone lines were busy. The old fire department number, 5445, however, will be discontinued as soon as the new system becomes effective, Franzen said. The new number, 2-4191, will also contact the city shops at 13th and Ferry streets. Each of the city offices and the shops are to be given extension numbers which will be made known to the public as soon as issued by the telephone company, Franzen said. The new switchboard is to be manned by members of the city radio force, headed by Don Poutjade.

Signs Set for Oregon Pilots

PORTLAND, Aug. 20—(AP)—Civilian pilots are going to find it easier to fly around Oregon and know where they are. The state board of aeronautics post-war program of air markings is underway with two signs — at Forest Grove and Sandy — completed and 82 others to be painted on building roofs of small towns throughout the state. A one cent tax on aviation gasoline is financing the \$10,000 program. The town names are painted in 10-foot letters readable from an altitude of 1,000 feet.

Jap-Americans Back in West

WASHINGTON, Aug. 20—(AP)—The War Agency Liquidation unit said today 60 per cent of the Japanese-Americans removed from the west coast at the start of the war have returned to their former home areas. Robert K. Candlin, chief of the unit established in the interior department for final liquidation of the war relocation authority, said in a report that 55 per cent of the nation's Japanese-Americans now live in Washington, Oregon and California, compared with 88.5 per cent in those states in 1940. Resettlement reports include: HOOD RIVER—Once a hot bed of Anti-Japanese sentiment, most Japanese-American farm owners making good adjustments. Young Nisei—second generation Japanese—hold office jobs and other work from which they would have been barred before the war.

Armed Chalks New Track Mark

CHICAGO, Aug. 20—(AP)—Armed the Calumet farm's golden gelding, galloped to new track record in winning the \$43,750 Whirlaway stakes at Washington park today in his final tuneup for the \$100,000 winner-take-all match race with Assault here Aug. 30. Armed, engaging in a terrific stretch duel with Pleasure—twice his conqueror this season—ran the mile and a furlong in 1:48 3/5, clipping four-fifths of a second off the old mark established by Be Faithful a year ago. U.S.-AUSSIES DISAGREE GENEVA, Aug. 20—(AP)—J. Dedman, Australian minister for post-war reconstruction said today the United States and Australia were far from agreement on an Australian demand for reduction of the U. S. wool tariff.

No Depression Soon in U.S. Says Official

WASHINGTON, Aug. 20—(AP)—There is not a thing in sight to show a depression is coming, Director Ewan Clague of the bureau of labor statistics said today. Clague told a news conference that a summer slump predicted by some has been "indefinitely postponed." Current high prices contain "nothing spectacular" of an economy-wrecking explosive nature, he observed. Employment topped 60,000,000 in July for the second consecutive month—and even a drastic drop in exports would not mean a corresponding slump in employment, the official said. Domestic demand, he declared, could "absorb" a large part, if not all, of the difference. Unemployment reached a summer high of 2,600,000 but already has begun to recede, Clague said. He pointed to an increase in housing activity as a factor in sustaining the employment level.

Food 'Greatest World Problem'

SPOKANE, Aug. 20—(AP)—W. Averell Harriman, secretary of commerce, told the Spokane Chamber of Commerce today that "food is the greatest problem in the world today." Addressing the group after flying here from Portland, Ore., Harriman said that communism "thrives on chaos, hunger, cold and disease." He said also that German coal production cannot be increased unless more food is sent to the miners. He expressed gratification that the 20 per cent of the Americans who are farmers have been able to feed the nation better than any other is fed and at the same time have a surplus for export that is greater than is produced "by all others together."

Change Needed Says Cordon

KLAMATH AGENCY, Ore., Aug. 20—(AP)—Klamath Indians have no reason to fear they will not get full value if the reservation should be liquidated as pending legislation proposes, Sen. Arthur Watkins of the senatorial hearing group said today. After Jesse Lee Kirk, chairman of the Klamath Indian business committee, said at the hearing he believed the Indians would not get full value for the estate in the event of liquidation. In the first indication of senatorial sentiment, Sen. Guy Cordon (R-Ore) said, "I don't believe present conditions on the reservation are proper. Probably we cannot take immediate action to throw the reservation open, but we must undo the harm that has already been done the Indians."

Turkey Price Aid Program Advanced

WASHINGTON, Aug. 20—(AP)—The agricultural department announced today that its turkey price-support program will be ready for operation on September 1 instead of October 1 as originally planned. The starting date was advanced in view of present high feed prices.

EX-GENERAL DIES RYE, N. Y., Aug. 20—(AP)—James G. Harbord, honorary board chairman of the Radio Corporation of America, who rose from private to lieutenant general in the army despite his failure to win a West Point appointment, died today at 81.

Recreation Survey Reports Posted to Show Salem Data

Posting of two reports to the long range planning commission on the study being made of recreational facilities in Salem was announced Wednesday by W. M. Hamilton, temporary chairman of the Salem Recreation association. The reports, the first of three to be made by C. A. McClure, commission engineer, were placed in 10 scattered locations in the city and will be left there for three weeks for the benefit of anyone interested in scanning them, Hamilton said. The surveys contain no definite conclusions on recreational facilities found in Salem or further needs, according to Hamilton, but include statistics and charts showing population trends, delinquency arrests and other factors pertinent to a recreational program. The third and final report is to be made at the next meeting of the recreational association, September 9. After that report is in, the planning commission is to consider whether to hire a member of the National Recreation association to analyze the data and make recommendations. The reports are posted at the Chamber of Commerce, city recorder's office in West Salem, Wooden Shoe restaurant, 1391 Broadway st., Parrish Food market, 805 N. Capitol st., Holly Nook, 1997 N. Capitol st., Ema's Coffee shop, 1698 Market st., Snack shop, 1695 Center st., McMillan's lunch, 1949 State st., Graen's market, 1190 S. 12th st. and Fairmount market, 1590 S. Commercial st.
