Caution Advised In Bond Cashing System Readied

In connection with the cashing of veterans' terminal leave bonds beginning on September 2, under a recent act of congress, H. C. Saalfeld, veterans' county service officer, advised Wednesday that holders who do not need the money let the bonds stand to accumulate 2 1/2 per cent interest.

It is estimated, he said, that 65 per cent of the veterans now holding bonds will cash them soon after September 2. He estimated that 35 per cent of the veterans in this area have not yet applied for their bonds. Applications must be completed for them prior to Sept. 1, 1948, he said.

He also advised that before cashing bonds, the veteran should note that they may be used for payment of national service life insurance policy premiums at face value.

Banks in the area and of the state are already setting up facilities for the cashing of the bonds and in most cases the same departments will handle the negotiations as are at present used in cashing the series "E" war and savings bonds, Saalfeld said. The veteran must merely present proper identification, usually in the form of his discharge papers, and sign the bonds in the appropriate place on the back.

'SAD SACK' DIVORCED

LOS ANGELES, Aug. 20—(AP)—Artist George Baker, 32, originator of the comic cartoon "Sad Sack," was divorced Tuesday by his petite wife, Brenda Baker, 23, who testified "he was cruel and on several occasions he slapped me."

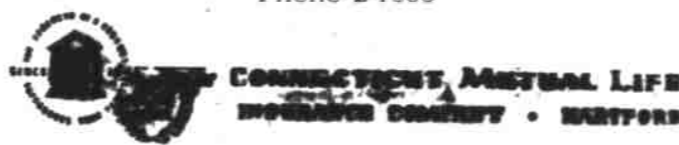

Who Said

IT CAN'T BE DONE? IMPOSSIBLE.

That's the way it seemed to Mr. L., manager of a small manufacturing concern. Like you, perhaps, he realized fully that he needed more life insurance protection for his family. But he just couldn't find the money for it. The whole thing seemed impossible—until he learned of a plan offered by the Connecticut Mutual Life Insurance Company called GRADED PREMIUM ORDINARY LIFE POLICY. For details at your age, call
