Notes that dice is a game played with money and a pair of cubes having sides dotted from 1 to 7. Figuratively they are like ice cubes, especially when loaded. They have absolutely no conscience in the matter of what happens to your money. They show you their dotted little reptilian eyes and send you home wondering how such an innocent looking pair of instruments could have fleeced you so thoroughly.

You can't shoot dice at Hale's in the Hollywood District. We're here to stay and we mean to protect ourselves by protecting you. We just don't gamble with our money or yours.
