

**FIREMEN BETTER**

A large number of Salem firemen are talking through "raspy" and sore throats Tuesday, as the result of chlorine gas inhaled Monday morning when some of the gas was released in a boxcar-tanker accident at the Oregon Pulp and Paper company mill here. Four firemen remained in Salem General hospital, with their condition improving. They are Battalion Chief Walter Eberhard and Firemen Paul Phillips, E. C. Hart and Clyde Bucholtz.

DeLuxe "Serve Self" laundry, 345 Jefferson. Ph. 26317.

**FARLOW CASE TO TRIAL**

Following his plea of innocent to a charge of participating in a riot, the case of Everett Delbert Farlow, 620 D st., soon will be set for trial, according to Marion county district court records Tuesday. Farlow is held in Marion county jail in lieu of \$500. He was recently released from Salem Deaconess hospital where he recovered from three gunshot wounds allegedly received in the fray. Two other men involved in the same charges were found guilty by a district court jury last Thursday.

**SPECIAL COUNCIL MEET SET**

The city council will meet at 5 p. m. Wednesday, October 1, in a special session to appoint election boards for the annexation election October 7. Mayor R. L. Elstrom explained that the city council expected to designate the same boards selected by Marion county for the special state election that day, but these boards were not filed in time for city consideration at the Monday night council meeting. The next regular city council meeting is set for 7:30 p. m. Monday, October 13.

Robert Rawson, Teacher of piano and harmony. Ph. 3058.

**STOP SIGNS ORDERED**

Two new sets of stop signs soon will be installed, one on McCoy street to stop traffic at Madison street and the other on 4th street to stop traffic at Norway street. Stop signs at both intersections were requested by nearby residents who complained of speeding traffic, and were authorized by the city council Monday night.

Luncheon and dinner at Silver Falls Lodge. Available to season end on October list.

Why have a sales tax? Hear Young and Van Dyke tell why. Listen to Neuberger and Thomas say why not. Charles Sprague is moderator. Salem High auditorium, Wednesday, Sept. 24 at 8 p. m. No admission charge.

**CHECKS FICTITIOUS**

Passing of two \$10 checks which the bank returned marked "unable to locate account" was reported to city police Tuesday by Leon's shoe store, 234 N. Liberty st. Al Lent, manager, said the largest portion of the checks went for merchandise bought by the check-passer.

**BOY IMPROVING**

**FIRST AID GIVEN**

The city first aid crew was called Tuesday morning to treat J. H. Shepherd, Salem route 1, box 222, after he fell from a ladder at West Salem Lumber company, where he is employed. Shepherd was taken to Salem General hospital for observation for a possible spinal injury, and was reported in good condition Tuesday night. Bryan Garrison, Salem route 6, box 311, was treated and taken home after he was struck on the head by a timber protruding from a moving truck. The accident occurred about one-half mile south of the 12th street-Pacific highway junction, where Garrison was working on a state road crew. The aidmen also removed a closed safety pin from the nose of Kenneth Hall, 1 1/2 years old, at 1880 Kansas st.

Dance to-night Crystal Gardens •

**AUTOS IN COLLISIONS**

A taxi driven by Kenneth E. Stewart, 815 S. 22nd st., collided with a parked car owned by Howard C. Tryon, Seattle, in the 400 block of Court street Tuesday morning, according to city police reports, and a Salem city bus driven by Kenneth E. Greenshaw, Salem route 6, box 1266, and a car operated by James B. Krigbaum, 1664 N. Liberty st., collided Sunday evening at Church and Jefferson streets. No one was injured in either accident, and damage to vehicles was slight, the reports said.

Are you interested in the way you are taxed? Attend the Town Meeting on the Oregon Sales Tax at Salem high auditorium Wednesday, September 24, 8 p. m. No admission charge.

All holders of Portland Electric Power first preferred and prior preferred or bonds should consult Comad, Bruce & Co. concerning exchange. 203 Oregon Bldg. Ph. 4106.

**Award Presented Marion Motors**

A 10-point award for conforming to all specifications for Nash dealers was presented to Marion Motors of Salem Tuesday night by M. F. Anderson of Seattle, zone manager for the Nash company. The plaque was accepted by K. Smith, president of Marion Motors, as part of a program at a banquet in the Marion hotel.

The "10 points of achievement," designed to strengthen the Nash service nationally, relate to capital, floor space, location, identification signs, appearance, service, parts, new-car showrooms, used car facilities and accounting procedure.

**Hiram Hart Dies at Home**

Hiram Edelbert Hart, 84, Salem resident for the past 31 years, died Tuesday morning at his home, 1060 Gaines st., following a brief illness.

Survivors are the widow, Mrs. Susan Leota Hart of Salem; a son, James Elbert Hart of Salem; two daughters, Mrs. Ruby Elva Perkins of Salem and Mrs. Peggy Leota of Portland; three grandchildren.

Funeral services will be at 2 p. m. Friday at the Howell-Edwards chapel, with the Rev. R. A. Krueger officiating. Interment will be at Belcrest Memorial park.

**12 REASONS why you should insist on a FOWLER ELECTRIC WATER HEATER**

**Low Operating Cost.** Long-life trouble-free black heat elements, and Fowler's new 3-way insulation guarantee low heat loss and high efficiency.

**Economy Temperature Control.** Automatic thermostats are adjustable to suit your needs or preference as to water temperature.

**Built of Heavy Gauge Iron.** Tanks are made of heavy gauge enameling iron for long life and trouble-free service.

**Porcelain Lined - Resists Rust.** Tanks are lined with two coats of porcelain enamel. Smooth, dense, vitrified, non-porous surface prevents contact of water and metal. This prevents any rust or corrosion.

**Pressure Tested.** Tanks are pressure tested three times in manufacture. Side seam welds, top and bottom, and entire assembly after plumbing is attached to tank.

**Black Heat Elements - Longer Life.** Fowler heating units operate black. Extra footage of larger gauge wire keeps units from operating at red heat. Lower temperature prevents oxidation of wire, insures long life of units.

**Long Life - 20 Year Replacement Guarantee.** The Fowler carries a 20-year replacement guarantee and will be replaced with a complete new water heater for a charge based on the proportionate part of 20 years of service received.

**Lustrous Enamel Finish.** Exterior finish of gleaming baked white enamel, shining surface easy to clean, enduring and attractive.

**Aluminum Reflector.** The sheet aluminum reflector increases Fowler efficiency by reflecting 85% of the heat rays back into the tank. This reduces heat loss to a minimum, assures the most efficient operation.

**Pre-stretched.** Fowler tanks are hydrostatically prestretched before porcelain enameling as pressure over three times higher than normal city water pressure.

**Seal Proof Insulation.** Fowler's thick cotton, fire-proof insulation holds its shape, stays in place and retains its high efficiency throughout the entire life of the water heater.

**Dead Air Insulation.** Sealed dead air space separates heat insulation from the tank. No heat is transferred from tank by conductivity.

Fowler Manufacturing Co. is the world's oldest manufacturer of electric water heaters.

House Wiring — Our Specialty

**Denison & Stone**  
Electrical Contractors  
Phone 8605 Day or Night 3055 Portland Road Salem, Oregon

**New ways the telephone can reach remote areas**

**Radio telephone** allows your voice to "ride the beam" into Death Valley, across the channel to Catalina Island... to Mount Hood... between Marysville and Redding. With transmitters like this one we can span sea or desert by radio and your voice sounds exactly as though it were coming over a telephone wire.

**Power-line carrier** is another new device which makes telephone communications possible in remote, sparsely settled districts. Your voice "hitch-hikes" along existing power lines on radio waves that are tuned to follow the wires. Several power-line systems are now used on the Pacific Coast... and they're as safe and effective to use as any.

**These developments are dramatic...** but most of our expansion program must be pushed with "everyday" things like this post-hole digger... wires and cables and switchboards. Our construction program of \$200,000,000 this year brings us closer to our goal: the finest telephone service for the West.

**New Working Dollars...** Millions of new dollars needed to build buildings and buy new equipment to meet the public demand for more telephones and more service do not come from telephone bills. New dollars come from people who are willing to put their savings into the business. We must earn enough to attract these new working dollars.

**THE Pacific Telephone AND TELEGRAPH COMPANY**  
740 State Street — Salem — Telephone 2-4101  
More than 60,000 people working together to furnish ever-better telephone service to the West!
