

# Export Report Sends Grains Up to Limit

CHICAGO, Sept. 29 - (AP) - Grains soared the limit permitted in a single session on the Board of Trade and other exchanges throughout the country today. Touching off the buying movement was a report by a committee of presidential advisers over the week-end that the United States should try to export 570,000,000 bushels of all grains, including 500,000,000 bushels of wheat and flour, in this crop year. Conferences between President Truman and congressional leaders in Washington emphasizing the tight world-wide food situation added to the inflationary psychology. Wheat closed 10 cents higher, December \$2.85 1/2. Corn was up 8 cents, December \$2.32 1/2. Oats ahead 6 cents, December \$1.16 3/4, and soybeans up 8 cents, November \$3.42. Lard also spurted,

# 2 Head South In Small Boat

ASTORIA, Sept. 29 - (AP) - Two Oregon men headed for sea today in a 30-foot sloop which they hope to sail through the Panama Canal and then along the eastern seaboard of the United States. Curtis Costello, former navy lieutenant-commander who owns the sloop, and Warren Lovell, 21, University of Oregon pre-medical student, estimated it would take them six months. The vessel, the Sun Setter, has only a five-horsepower auxiliary gasoline engine. Stops are planned at Sausalito, Calif., Long Beach and San Diego, Calif.; La Paz, Mexico, and Daytona Beach, Fla. would result in a special congressional session with big-scale dollar relief being voted for Europe as a stop-gap measure. The Associated Press 60-stock composite was up 3 of a point at 64, its first Monday gain since last July 14. Of 973 issues registering, 454 rose and 279 fell.

# Skirts Short For Princess

LONDON, Sept. 29 - (AP) - Princess Elizabeth turned up her royal nose at long skirts today. She made her first public appearance here since the long skirt fashion took hold, and she chose a suit with a skirt just covering the knees. "Cool! And it's fine she did," exclaimed a typist who shares a popular British view of the just-above-the-ankles trend. The princess, ending a seven-week stay at Balmoral castle in Scotland, came home to get on with preparations for her wedding to Lt. Philip Mountbatten on Nov. 20. The British guild of creative designers, which largely controls fashions here, announced last week that long skirts will be resisted firmly in Britain because they take more scarce cloth. Blacksnakes can climb rough-barked trees in wide sinuous curves.

# Grain Prices Climb Limit As Need Grows

By the Associated Press Grain prices soared the limit on all North American exchanges today as President Truman moved to determine whether to call a special session of congress to deal with European grain. Other commodity gains, including a new 1947 high for choice steers in the Chicago market, were recorded. It was the emphasis on the tight world grain situation underlined by the White House meeting and a recommendation made during the week-end by the Harriman committee to Mr. Truman that 570,000,000 bushels of grain be shipped abroad that resulted in today's inflationary trend of grain prices. Wheat gained 10 cents on the Chicago, Minneapolis and Kansas City boards; corn rose 8 cents at Chicago and Kansas City, and oats advanced 6 cents at Chicago and Minneapolis. In all cases, the rise was the limit permitted during a single day's trading at the exchanges. Livestock ranged steady up to 7 1/2 cents higher in Chicago, with hogs leading the trend at a top for choice butcher grades of \$28.75 a hundred pounds. A new 1947 top of \$35.90 was reached for strictly choice steers. Native spring lambs were mostly \$22.50 but one load sold for \$23. A new upward surge of soap prices was heralded by the announcements of two leading manufacturers that they were increasing the cost of their product 10 per cent. The manufacturers, Proctor and Gamble and Lever Brothers, announced also that they had raised the price of vegetable shortening 3 per cent. In the New York commodity markets, butter gained a quarter of a cent a pound, with AA grade selling at 78 1/2 cents. Eggs were unchanged, but some grades of cheese advanced as much as 2 1/2 cents a pound. Wholesale meat prices remained steady, but cocoa, cottonseed oil, hides and rubber futures rose.

# State Renews Claim Lovers Beat Overalls

SANTA ANA, Calif., Sept. 29 - (AP) - While Heiriss Louise Overell fought - often unsuccessfully - to hold back her tears the state charged today that she and her lover, husky George (Bud) Colbum, beat her parents to death, then dynamited the palatial family yacht. Deputy Attorney General Henry A. Dietz, quietly and methodically summarizing the state's case, paid particular attention to the socially prominent Mrs. Beulah Overell, slain with her husband, financier Walter E. Overell. Mrs. Overell has been the "forgotten woman" of most of the trial. The defense virtually ignored her as it attempted to show that Overell was alive at the time of the blast - a time when Louise, 18, and Gollum, 21, were ashore buying hamburgers. But Dietz made much of prosecution testimony that Mrs. Overell's hands were fractured. "And," he said, "they were fractured from the back. She got those fractures when she put her hands behind her head to protect herself. Then she toppled over and Bud or Louise, continued to rain blows on her."

# Judge Cancels Actor Divorce

LOS ANGELES, Sept. 29 - (AP) - Actor Brian Donley's divorce from Marjorie Lane Donley was ordered set aside today by Superior Judge Allen W. Ashburn. Her attorney argued that she is a "weak, sleepless, misguided little woman who has been coerced into signing away her child and her property rights." He asserted that during contested divorce proceedings which resulted in granting the decree last Feb. 11, Donley's residence was not corroborated in court. Earlier today Donley filed two supplemental affidavits in opposition to his wife's petition to have the divorce decree set aside, denying that he entraped her in a bedroom with another man in a New York hotel and accusing her of an "adulterous rendezvous" while their 4-year-old daughter was in the next room.

# Washington Rejects Bid on Bridge Bonds

OLYMPIA, Sept. 29 - (AP) - The Washington toll bridge authority today rejected a \$3,607,962 bid for the proposed \$3,650,000 bond issue for the purchase of a quarter of a cent a pound, with AA grade selling at 78 1/2 cents. Eggs were unchanged, but some grades of cheese advanced as much as 2 1/2 cents a pound. Wholesale meat prices remained steady, but cocoa, cottonseed oil, hides and rubber futures rose.

# Pre-War Nation Said Too Weak To Fight Nazis

Speaking with a decided Austrian accent, Dr. Kurt von Schuschnigg, former chancellor of Austria, explained to the members of the Salem Knife and Fork club last night the reasons why his country did not resist the invasion by Hitler in 1938 with force. Pointing to the weak position of his country, he noted that under the provisions of the Treaty of Versailles Austria was allowed only 30,000 soldiers, no planes, no artillery, no aircraft shelters, not even a black-out system. This left the nation completely dependent on western Europe for aid against aggression with 300 miles of vulnerable border to defend. "As the crucial day approached, it became apparent that no immediate help would be received from the west," he explained. "Defense would have been suicide." Dr. von Schuschnigg relinquished his post as chancellor after telling his country and the world that he did so under pressure. For this he was called a "criminal liar" by Hitler and spent seven years in a concentration camp, the last year and a half of which were in solitary confinement. He was liberated by the U. S. 5th army in April 1945, following which he read the order for his execution which had been issued just prior to the 5th army advance. He testified last year at the war crimes trials in Nurnberg, Germany, and is currently making his home in New York.
