YOUR DOCTOR KNOWS

When you feel "out of sorts," when you have an ache or a pain, well-meaning friends will gladly prescribe for your ills. Their judgment is based on what they have heard from others, and they talk glibly of what happened to Pete,

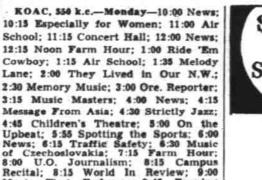

Sam, or John under similar circumstances. Such friendly interest may result in serious harm. When you need medical advice there is just one person in the world qualified to give it. That is your family physician. See him promptly. Bring his prescriptions to us. They will be compounded with accuracy and dispatch.
