U.S. Failure to 'Get Along with' Russia Noted in Panel Speeches

The United States can get along with Russia, but has completely failed in its efforts thus far, was the opinion expressed by three speakers participating in a panel discussion on the topic, "Can We Get Along With Russia?" at Waller hall on the Willamette university campus Thursday night. The discussion, attended by a capacity crowd of students and ad-

Distilleries to Keep Workers On Payrolls

seph O'Neill, general president of the Distillery Workers union, announced today three distilling concernes agreed to maintain all his union's members during the 60day production holiday with no

downgrading in pay.

The two - months shutdown of the distilling ndiustry was requested by Charles Luckman's food conservation committee to save grains for European relief. Five other distilleries, O'Neill said, "will notify us of their intention within 48 hours." The eight distilleries participating in . conference here today represent 60 per cent of the industry, O'-

Hollywood Red **Probe Halts** With Spy Tale

WASHINGTON, Oct. 30 .- (AP)-The big investigation of communism in Hollywood wound up today with testimony from former FBI Operative Louis Russell that a Russian vice consul instigated unsuccessful efforts in 1942 to wangle "highly secret" information from atom bomb expert J. Robert Oppenheimer.

But the house committee on un-American activities produced no evidence that anyone in Hollywood had any direct connection with these "espionage activities."

It did, however, turn out contempt actions against two more Hollywood figures - - Writers Ring Lardner, jr., and Lester Cole who wouldn't say definitely whether they are communist or not.

Chairman J. Parnell Thomas (R-NJ) chopped off the hearing in its ninth day, with a promise that it will be started up again "in the near future" either here or in Los Angeles.

This is the spying story told by

George Charles Eltenton, who corporation of Emeryville, Calif., and veal. and once lived in Russia, got in touch with Haakon Chevalier, a professor at the university, and asked him to find out what was Walcott Opens being done at the University of California radiation laboratory. Training Grind Chevalier approached Oppenhei mer and told him Eltenton had a "source" through when he (Eltenton) could relay information to the soviet government.

Oppenheimer told Chevalier this was a "treasonable act and he wouldn't have anything to do lations with Russia, but, like The- with it."

Meat Prices Drop in Salem

While butter prices started climbing again in the past week, Salem meat packers began quoting somewhat lower meat prices. Dairy and meat distributors agreed that both price trends are largely of a seasonal nature.

Retail butter price was up from 81 to 82 cents Thursday, and the wholesale price up from 76 to 77 cents, the increases pegged by observers to beginning of the annual shorter production period. Big November marketing in the
