

Oregon Peak Work Year Fades; 'Settling' Down Lessens Jobs

Cessation of food processing and other seasonal activities has caused Oregon's record peacetime employment peak in late September to decline abruptly to the lowest point in two years, the state unemployment compensation commission reported Saturday.

In commission offices throughout the state 29,500 applicants had applied for 2,099 unfilled jobs up to November 1, the commission reported. Veteran and civilian claims for compensation rose steadily from a 1947 low of 10,807 for the week ended September 26 to 18,940 for the week ended November 14. A report which included 1,040 employers indicated a mid-winter low materially above that in recent years.

Fewer unfilled jobs have been listed with the commission than in any period since the end of the war. More settled economic conditions were given as reasons for the reason for the fewer job opportunities. Skilled help was as much in demand in early Novem-

ber as the month before, but jobs for unskilled, semi-skilled and service workers slumped off from 60 to 65 per cent, the commission stated.

O & C Urged to Retain Lands

Recommendation for the O & C administration to retain title to Oregon and California grant lands but to trade certain areas for other lands with the federal forestry department was approved at last week's meeting of the O & C counties in Portland.

Marion County Judge Grant Murphy, who with County Commissioners Roy Rice and Ed Rogers attended the meeting, said Saturday that the representatives of the 18 counties present could "see no purpose in giving up the lands."

The three county officials also attended the annual convention of county judges and commissioners during the later part of the week. The business discussed was routine, Judge Murphy said, and, as this year is not a legislative year, no new proposed legislation was considered.

County Treasurer S. J. Butler also attended a convention of county treasurers in Portland last week, but Saturday reported that no new business had come up before the group.

Daisy Is Named Dallas Flower

DALLAS — Garden club chose "Daisies for Dallas" as the club flower at the meeting Thursday. This will include any daisy type flower. Mrs. Elmer Boman was appointed chairman of a committee to promote the growing of daisies in and around Dallas.

The club will meet at the Evangelical United Brethren church December 16 at 1:30 p.m. to make swags and wreaths for the club Christmas party and to be taken later to the hospitals, old peoples' and convalescent homes. Mrs. Norman Baker and Mrs. Moore are in charge.

Frank Crawford of Lincoln spoke from his personal experience with growing tuberous rooted begonias. He said those wishing to grow begonias should remember the begonia is South American and soil, locations and conditions should be as near as possible those of that continent.

Cuttings will sprout and usually come true to type. Growing from seeds, while different is interesting, Crawford said.

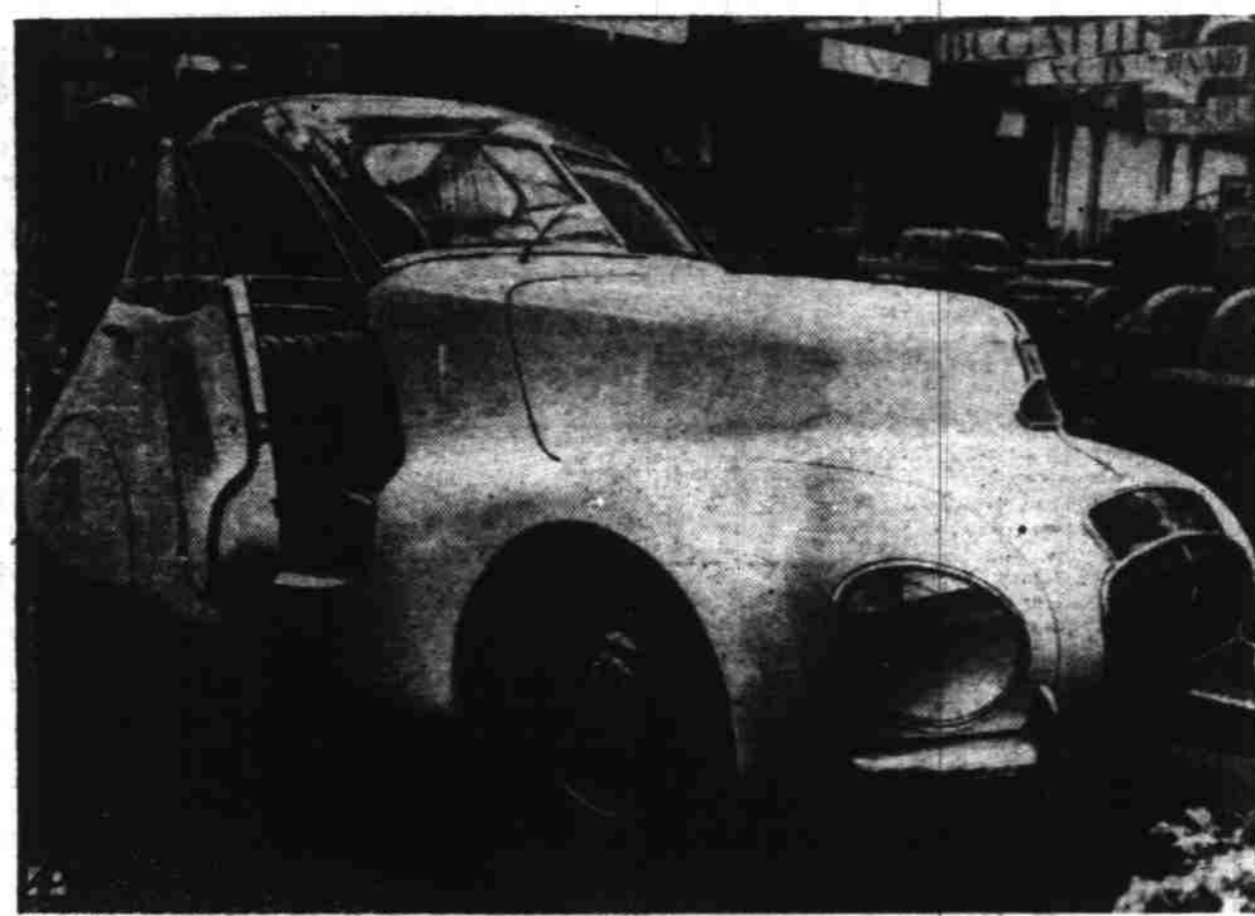

Next meeting will be December 18, the Christmas party, with the program committee members as hostesses. Gifts for the garden and daisy type plants will be exchanged. It will be in the chamber of commerce rooms.

Mrs. Ed Shaw presented each member with a myrtlewood seed from a tree in her yard brought from Marshfield several years ago. Sage and other plants were also distributed.

Hospital to Examine Woman Jailed Here

Neda Chastain, who pleaded guilty to a forgery charge, was sent Saturday by Marion County Circuit Judge E. M. Page to Oregon state hospital for examination. Sentencing will be withheld until the observation report is made, the judge ordered.

Mrs. Chastain, wife of Leonard Chastain who was last week sentenced to two three-year terms in Oregon state prison on the same charge, and her husband reportedly admitted cashing over \$325 in bad checks here.

County Chest Below Quota

Of Marion county's total chest quota of \$116,048, to date \$103,000 has been raised, according to an Oregon Chest report Saturday. The city of Salem is included in this county's quota.

Of the county's total budget, \$18,151 is to be earmarked for the Oregon Chest, of which \$13,818 has been accumulated. Total quota for the state is \$436,593, of which \$317,726 has been raised. Salem has raised about \$95,000 of its \$100,000 quota.

The report also showed that Benton county had gone approximately \$6,000 over its quota of \$14,695 and that Clackamas county was over the top of its \$23,333 budget with nearly \$2,000 additional. To date Polk county has raised exactly one-half of its \$12,000 quota, the report indicated.

UNION PETITIONS OUSTED

WASHINGTON, Nov. 22 — (AP) — The national labor relations board announced tonight dismissal of petitions of 14 labor unions for collective bargaining elections involving a total of more than 3,000 workers, because the unions had failed to comply with the Taft-Hartley act. The unions failed to file the non-communist affidavits and financial data, NLRB said.

Pay-as-you-are-paid... for DENTAL SERVICE

DR. PAINLESS PARKER SAYS:
"You can get Dental Plates, Bridgework, Fillings, Crowns, Inlays, Extractions on credit payments to suit your convenience; weekly or monthly budget terms."

Poor Teeth Impair Appearance

Disfigured or missing teeth can keep you from looking your best; often give people a sour, unhappy look because they are ashamed to smile. Get needed dental work now; pay as you are paid.

More Natural-Looking Plates

Made with the materials all dentists recommend for faithful reproductions, modern plates are lighter, more lifelike. Translucent teeth of the same color hue, same density of shading and size of your own teeth make plates look more natural.

No Appointment Necessary

It is not necessary to make an appointment for a complete examination of your teeth. If this examination indicates that dental work is needed, it can be started at once, without delay. And you can arrange payment on a weekly or monthly basis.
