## Withhold Tax Applies to Pay Earned Before Jan. 1 if Paid In New Year, Officials State

The 1 per cent withholding tax on wages and salaries, held constitutional by the state supreme court here Thursday, applies to all salaries and wages paid on or after January 1, 1948, regardless of when the wages were earned, the state tax commission announced in a prepared statement Saturday. Report forms will be available shortly after January 1. These forms and instructions will be mailed to all known employers as soon as available. Employers who do not receive instructions and forms before March 1, 1948, should write to the state tax commission and request them, the statement said.

Employers must withhold on all wages paid if the total paid to all employees exceeds \$50 for any month, even though the amount paid to any one employee does not exceed \$50. No employer is exempt from the law except the federal government in the case of payments to persons serving in the armed forces, and common carriers in the case of employees who reside outside of Oregon. Employers of domestic help and farm labor are not exempt and must withhold the tax if total wages exceed \$50.

If wages are paid in part by property or services furnished to the employee by his employer, the employer is required to compute the fair money value of such property or services furnished and remit 1 per cent thereof. A common example would be the case of an employee who is furnished board and room by his employer.
