**Tropical Fruit Again on Grocer's Shelf Makes Good Confection, Cake**

By Maxine Baren  
 Dates have again become permanent items in local shops. Though the supply was erratic during the war years, imported and domestic dates have returned for good, it seems.  
 Dates are indeed a versatile food—an important one in the orient. Dates are used in salads, desserts and as a confection. It's recommended that one buy packaged dates for eating uncooked, and leaving the bulk kinds for times when they are to be cooked. Domestic dates (and there are many grown in California) are reliable as to cleanliness, but some of the imported ones may not come up to the standards for raw eating, though they have passed inspections required for importations of food.  
 Old time recipe is Bishop's bread, a cut cookie which uses dates. Here's a recipe for  
**BISHOP'S DATE CAKE**  
 1 cup pitted dates, cut up  
 1 cup chopped nuts  
 1/2 cup butter or shortening  
 1 cup sugar  
 4 eggs separated  
 1 1/4 cups flour, sifted  
 2 1/2 teaspoons baking powder  
 1/2 teaspoon salt  
 Cream butter with sugar, add yolks and beat hard. Sift baking powder second time with flour. Add to shortening mixture, add nuts and dates. Fold in whites, mix gently but thoroughly. Turn into oiled loaf tin, bak at 325 for 80 minutes or until well done.  
 Another recipe from the California date growers is this:  
**DATE, PECAN CINNAMON TOAST**  
 1/2 cup butter or margarine  
 1/2 cup walnut meats  
 1/2 cup sugar  
 1 tablespoon cinnamon  
 1/2 cup dates, pitted and cut  
 White bread  
 Melt the butter and add the nuts. Fry the nuts slowly until crisp. Remove from fire, add sugar and cinnamon. Mix and spread on white bread. Dot with the dates. See that the nuts are distributed evenly over the bread. Place on a cookie sheet beneath the broiler flame and broil gently until bubbly. Serve hot. Make about 4 or 5 slices that should be cut in half.

**You're SURE when you shop SAFEWAY**

**SURE of full value in good-eating meat because...**

... you get meats of guaranteed quality, trimmed waste-free before weighing. See in the diagram at left, what this means when you buy a standing rib roast. Although many markets cut rib roasts from seven ribs, Safeway rib roasts are cut from only the first five tender ribs. These are cut seven inches long. The less-tender end is lopped off to be sold as short ribs at a lower price. The heavy chine bone is also removed. Result: you pay for just that part which is suitable for oven-roasting . . . the tender center portion. Every cut of meat you buy at Safeway is correctly prepared for cooking before it is weighed. For meats, as for all foods, be sure...shop SAFEWAY.

**RIB ROAST at Safeway is cut so you pay only for portion that will roast just right**

**SURE of greater savings because...**

... we price all items as low as possible. In addition, we meet every competitor's "special" prices... item by item, day by day.
