

HOMES FOR AMERICANS

An English heritage in the American scene is reflected in this plan 5R-23 by Elmer Gylbeck, architect, 120 1/2 S. Grove ave., Elgin, Ill. Low sweeping roof lines and interesting chimney design add to an appearance of hospitality. The house is of brick veneer. The trim should be light brown with a variegated brown wood or asphalt shingle roof. With a full basement the house contains 20,000 cubic feet. The main portion of the house measures 27x32 with an added wing at the rear and at its front entrance.

Stocks Revive Moderately on Selective Basis

NEW YORK, Jan. 20—(AP)—Stocks revived moderately today on a selective basis although many market leaders remained in minus territory and the session was the second slowest of the year to date. Such recoveries as appeared were credited mainly to professional bidding for a technical comeback after the recent slide to average lows since early December. Doubts regarding foreign affairs, business and possible further anti-inflation moves by Washington inspired some offerings. While gains of fractions to a

Grains Finish Well Above Last Closing

CHICAGO, Jan. 20—(AP)—Grain futures withstood profit cashing toward the close of trading's session at the board of trade and finished well above yesterday's closing levels. Wheat led the advance after a nervous start on reports that the government was in the cash wheat market. The commodity credit corporation announced it had purchased 1,983,700 bushels of wheat from noon Friday to the close of business Monday, and had remained in the market today. Toward the close profit cashing entered the pits but it was well absorbed, especially by corn. At the finish wheat was 1 1/2 to 3 cents higher than the previous close. May \$2.99 1/2. Corn was 1 1/4 to 3 cents higher, May \$2.65 1/2. Oats were 3/4 to 2 cents higher, March \$1.34 1/2. Soybeans were 7 cents lower, March \$4.18 1/2.

Traders paid little attention to reports that Secretary of Agriculture Anderson had told representatives of brewing interests that if they could not agree to a 20 per cent reduction in the overall use of grain during the remainder of the current grain shortage he would ask congress to give him authority to require a reduction.
