

Sec. Marshall Unveils Hitler-Stalin Treaties as Diplomatic Slap

Nazi-Soviet Plan to Divide Europe Told in Captured Papers

WASHINGTON, Jan. 21 (AP)—Secretary of State Marshall threw the book at Soviet Russia tonight—a massive array of captured Nazi documents bearing details of the partnership between Russia's present leaders and Hitler's Reich for the division of eastern Europe.

With Marshall's sanction, the state department published the entire record of 260 formerly secret records disclosing that Russia:

- 1 — Backed Germany heavily in her war against the west, furnishing supplies by the hundred thousand for striving to the last for "friendship" with Germany and aiding the Nazi campaign to keep Turkey neutral.
- 2 — Agreed with Adolf Hitler that the United States, as well as Britain, should be shut out of Europe, Asia and Africa.

By Charles A. Sprague

Wednesday I attended the hearing in Eugene called by the department of the interior to consider the creation of a sustained yield forest unit in an area of Lane and Linn counties lying northeast of Springfield reaching over the divide between the Mohawk and Calapooya rivers. C. Girard Davidson, assistant secretary of the interior presided since the major portion of the area is O & C grant land administered by the department.

The hearing attracted several hundred persons, many from a considerable distance, because it is the first operating unit to be considered by this department, and the pattern set here will probably govern future units. The federal forest service has established a unit of its own around Shelton, Wash., and has others under consideration.

The real battle which developed at this hearing is over selection of one producing mill with substantial acreage as the one for which the timber on federal lands should be reserved. Other operators, now buying timber on bids, see their source of supply reduced and vigorously oppose any "chosen instrument" policy.

The argument for the program is that timber is now being cut at a rate faster than it is growing. (Linn county's cut was 800 million board feet last year and its increase through growth 400 million b.f.) Hence the mills are now fast cutting themselves out of supplies. Under the proposed plan the public and private timber agreement would be pooled to permit continuous

Britain Cripples Partition Plan

Girl Prodigy Located 8 Days After 'Escape'

SAN FRANCISCO, Jan. 21 (AP)—Fifteen-year-old Jacqueline Horner, piano prodigy who broke away from her home ties in rebellion against what she said was an inhibited, unnatural life in which she was exhibited "like an animal," was found here today after an eight-day search. She promptly declared she would run away again if returned to her mother.

A painstaking hunt, which encompassed various tawdy side-street bars and transient hotels finally led police to a hotel room. There the girl, who admittedly has been seeing life as she never saw it before — and enjoying her experience — was found with Wallace Wells, 19, Hood River, Ore., sailor off the navy tanker Cimarron.

Jacqueline and the sailor emphatically told police and newsmen they had done nothing wrong or improper.

Notified in Los Angeles that her daughter had been found, Mrs. Horner, who had expressed fears of a kidnapping, was placed under a physician's care.

Jacqueline ran away from her Hollywood home on January 13. She said she had grown weary of the life demanded of her by her mother, Mrs. Clara Horner of Los Angeles. The girl said she had not been allowed to play with other children for fear she might ruin her hands for the piano, and that she could not go swimming because her mother feared she might damage her ears.

Ammo Blast Shakes Illinois, Iowa Area

SAVANNA, Ill., Jan. 21 (AP)—An underground ammunition dump holding 150 tons of anti-tank mines exploded tonight at the Savanna Ordnance depot, jarring windows and homes throughout a three state area in a 100-mile radius.

Col. Eugene Regad, commanding officer of the depot, said there were "no casualties," although the explosion left a crater 100 feet wide and 50 feet deep and rattled windows in Peoria, Ill., 100 miles southeastward.

Col. Regad said the depot, which normally employs 1,000 persons, is inoperative at night. He added that patrols in the area were not injured. The blast occurred about 6:55 p. m. (PST) and caused widespread reports of earth tremors throughout northwestern Illinois, southern Wisconsin and eastern Iowa.

One eyewitness there said he saw "a huge ball of fire" followed by a "thunderous blast."

Palestine Migration Rejected

BRITAIN tonight rejected the recommendation of the United Nations assembly for opening a major port in Palestine by February 1 to permit the beginning of large scale Jewish immigration.

Britain's refusal to comply with this key provision of the Palestine partition plan was placed before a secret meeting of the U. N. Palestine partition commission by Sir Alexander Cadogan, British ambassador in Washington.

The British declaration thus made it clear that the commission would be unable to implement the first step in the partitioning of the Holy Land and would be compelled to report its failure to the security council.

Cadogan, replying to four specific questions submitted by the five-member commission, also declared Britain had no intention of increasing the present immigration quota of 1,500 a month between now and termination of the British mandate now scheduled for May 15 "or earlier."

Cadogan's answer was given special importance because it involved the first deadline in the partition plan and thus provided the first test of the commission's ability to implement its terms.

The report will include a summary of the commission's difficulties to date and will undoubtedly call the council's attention to Britain's position on immigration as well as other phases of the partition plan.

In explaining Britain's refusal to comply with the U. N. recommendation to evacuate a major port by February 1, Cadogan said that if there was an uncontrolled influx of immigrants into the Holy Land it would jeopardize an already delicate situation, would create further difficulties and endanger general security in Palestine.
