Grain Values Drop Several Cents Friday

CHICAGO, Feb. 20 (AP)—Several cents were chipped off grain values on the board of trade today. More favorable weather in the winter wheat territory and continued absence of the government from either the cash wheat or flour markets caused moderate selling.

At one time losses in wheat extended to more than 6 cents, but a part of that drop was recovered before the closing. Some late buying developed after Sen. Young (R-ND) suggested the 150,000,000 carry over provision be reduced to 100,000,000 bushels or repealed outright.

Wheat closed 2 1/2-1/2 lower, May \$2.33 1/2-1/2; corn was 1 1/2-1/2 lower, May \$2.09 1/2-1/2; oats were 1 cent to 1 1/2 lower, May \$1.04 1/2-1.05 1/2, and soybeans were 2 to 7 cents lower, March \$3.33. A pessimistic winter wheat report was received by the Norris Grain company. It said that approximately 9,000,000 acres sown to wheat in Kansas had less than a 50 per cent chance of producing a crop. The outlook in the Oklahoma Panhandle was placed at 50 per cent or less of normal.

Supervisors Install Griggs

New officers were installed and a 30-day membership drive launched at a meeting of the Salem Industrial Supervisors club at the YMCA Friday night.

Officers installed were Larry Griggs, president; C. R. Francis, vice president; and Tim Briggs, secretary. Griggs announced that the membership campaign would start today. Speaker at Friday night's dinner meeting was Dr. Ronald K. Campbell, associate professor of business and industry at Oregon State college. Campbell is also vice president of the Portland chapter of Pacific Northwest Personnel Management association.

Speaking on the subject "Hum-

an Relations Down to Earth," Dr. Campbell told the supervisors that they must get the facts "on the table" before making decisions in management - personnel problems. Demands for higher wages are sometimes only warnings of general unrest, he said. Dr. Campbell praised the incentive plan as one which will boost production.
