1. Some of the busiest fellows in town...Pacific Telephone's installer-repairmen. For we're adding a lot of new telephones every day in the West. It's steady work. And the pay? Latest records show top rate men average about \$80 a week for 42 hours. The younger men graduate up to the \$80...according to experience.

**What it's  
like to be a  
telephone  
installer**

2. If you became an installer you'd start, most likely, in a training school. With pay, of course...\$37 or \$38 a week. Then regular increases for eight years after you got on the job. You'd be given other training, too...to help you learn your way up the ladder. Most all the top men in the company came up that way.

4. Telephone jobs must be good jobs to attract the capable people needed to furnish good service. Good pay, steady work and an employee benefit plan give a strong sense of security. Comfortable surroundings, vacations and friendly fellow workers help make work pleasant.

3. Fun like this is more fun when your job's secure. And you can count on telephone work. There's a fine benefit plan, too, paid for entirely by the company. It covers sickness, accidents and death, and provides a helpful pension. There's nothing like the peace of mind a telephone job gives you...at work or at play.

**The Pacific Telephone  
and Telegraph Company**
