Safeway Trims It Before Weighing

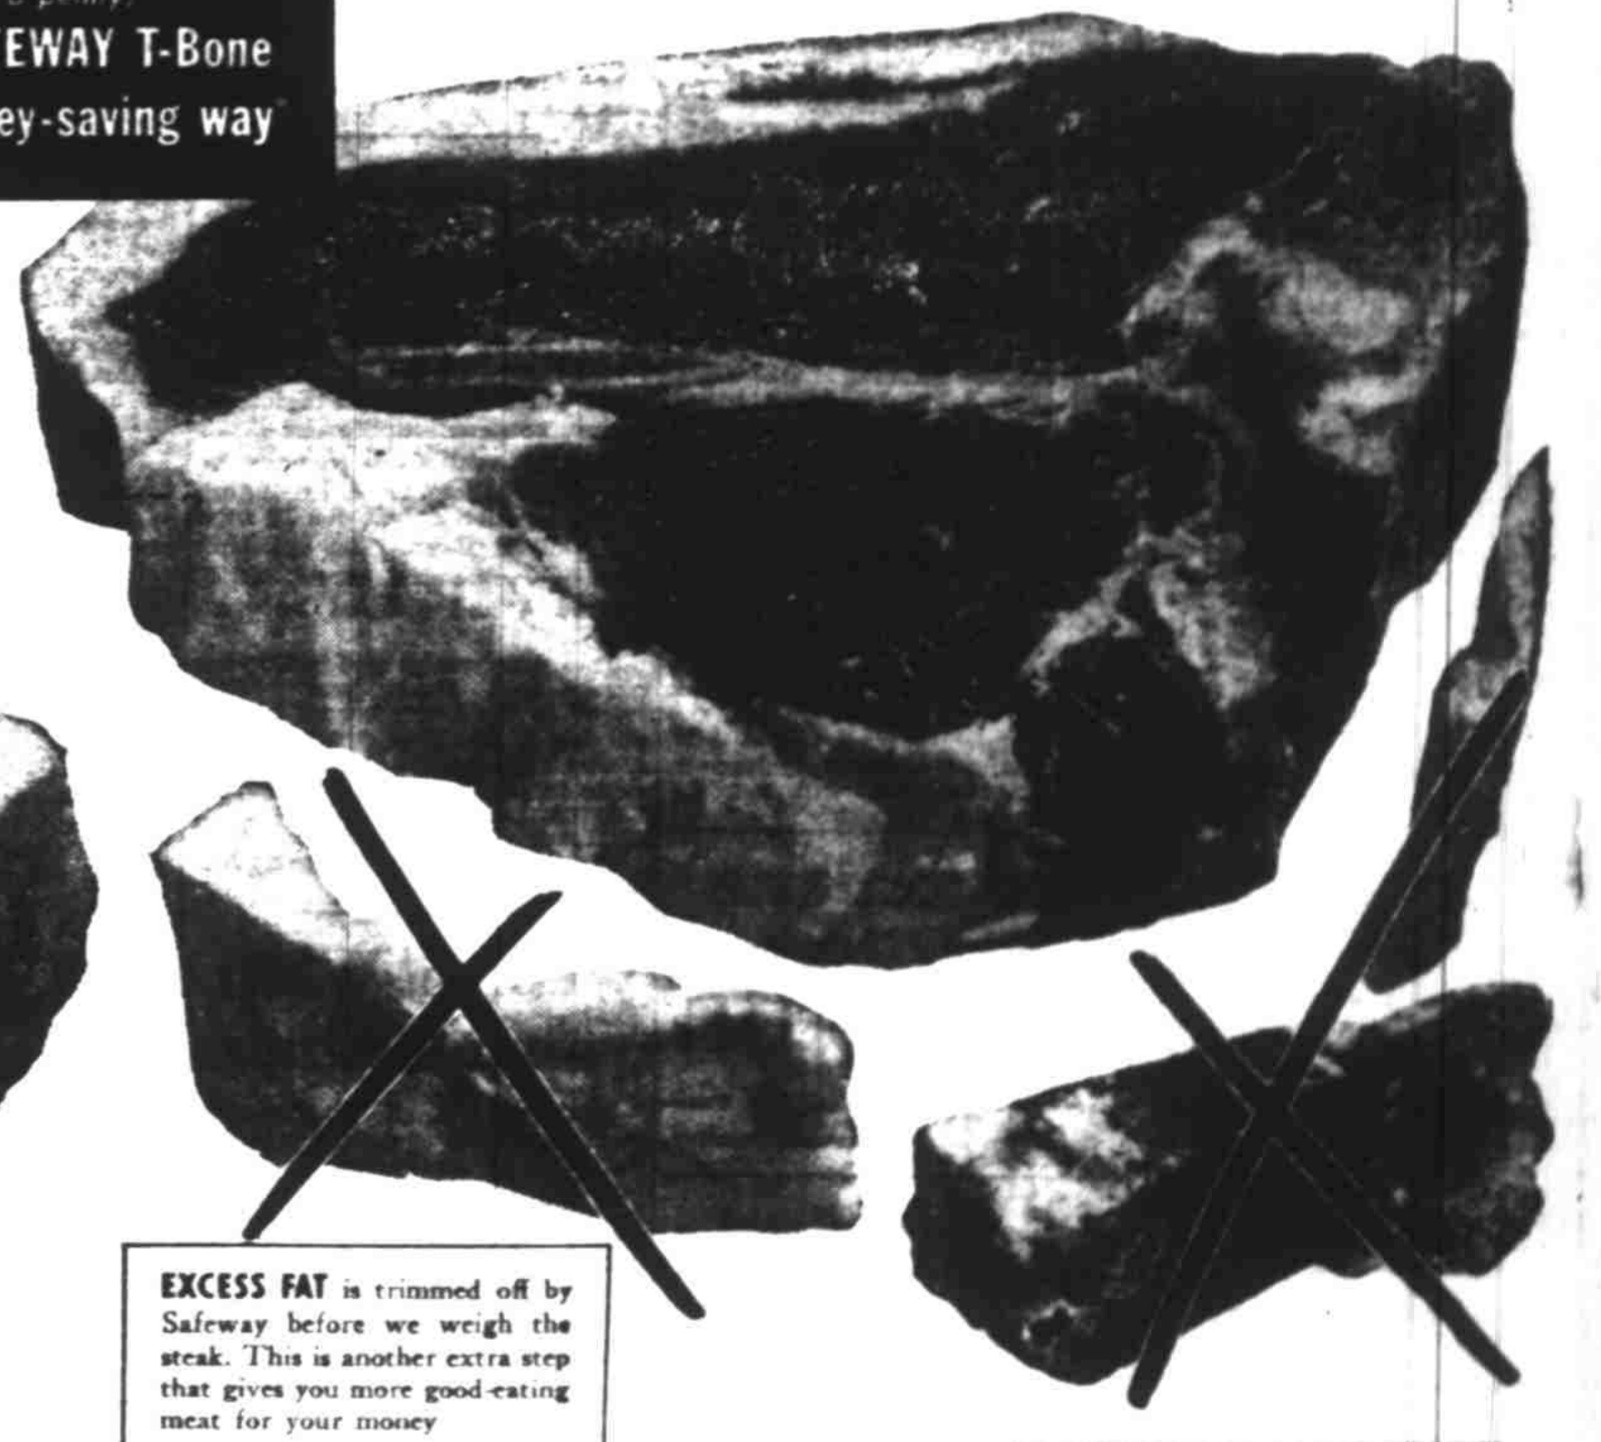

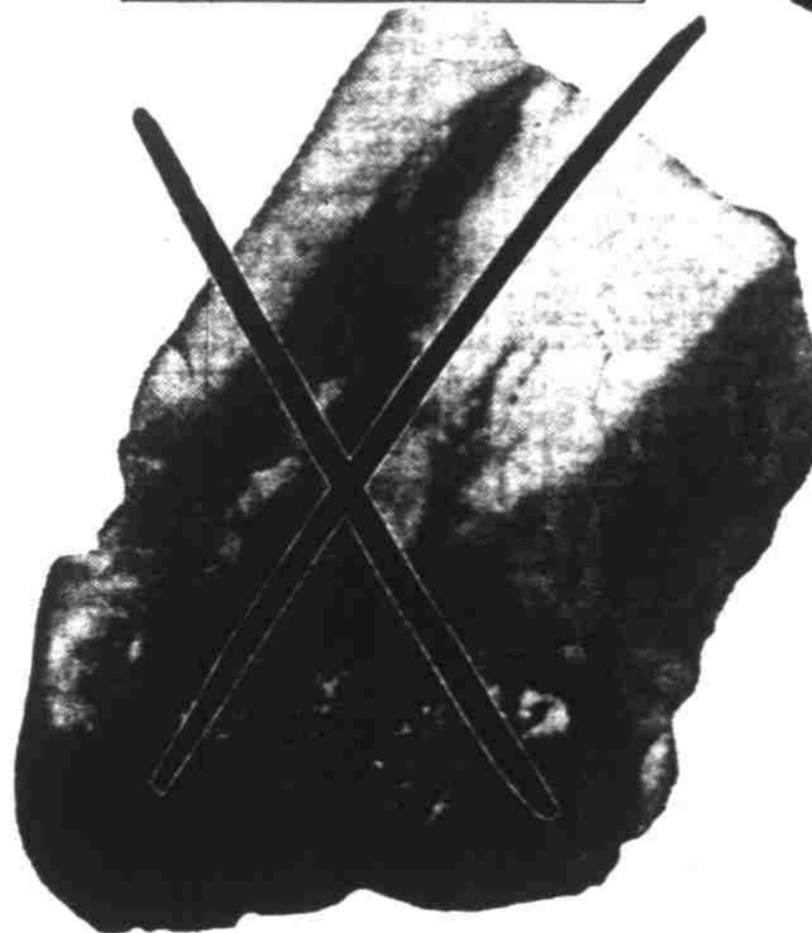

We'll give you 2 T-Bone Steaks

(they won't cost you a penny)

if ever you get a SAFEWAY T-Bone not trimmed this money-saving way

SO YOU SAVE MONEY

TOUGH MEAT removed from end of steak by Safeway before we weigh your T-bone on the market scales. It gives you a steak that cuts tender in every part

EXCESS FAT is trimmed off by Safeway before we weigh the steak. This is another extra step that gives you more good-eating meat for your money

EXCESS BONE and gristle at top end of steak cut off by Safeway before weighing... so you don't pay for these waste parts

Wherever you buy meat you are entitled to money-savings that result from proper trimming of each cut before it is weighed. Insist that your butcher trim this way. If he refuses why not buy at a market where this kind of trimming is done?

YOU SEE ABOVE how Safeway removes excess waste, fat and bone from T-bone steaks before weighing. We prepare other cuts in similar fashion—each one according to its special requirements. This waste-free cutting is part of Safeway's Guaranteed Meats plan. We regularly trim our meats this way.

When you compare meat prices, remember that Safeway's prices always are on the TRIMMED cut, free of excess bone, waste and fat, ready for cooking.

If ever you're not satisfied that the meat you buy at Safeway is trimmed the money-saving way we say, just

show it to the manager of the Safeway store where you bought it. If your Safeway T-bone steak (for example) is NOT trimmed as shown above—you get TWO T-bone steaks without a penny's extra cost (and without quibble or argument!)

Safeway buys nothing less than the top government grades of beef (all beef sold at Safeway is U.S. Government graded)... nothing less than the top grades of lamb, pork and veal.

Come prove for yourself—there's more good-eating at less cost in Guaranteed Meats from Safeway!
