Without Painful Backache Many women are suffering backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are the chief way of taking the excess acids and waste out of the blood. They help most people pass about 1 pint a day. When disorder of kidney function permits poisonous matter to remain in your blood, it causes aching backache, rheumatism, leg pain, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years.
