'Home-of-the-Week'

AP Newsfeatures
A SMALL HOUSE with a big house floor plan -- this design by Shaw & Renneker, architects, for the Small Home Plan Service, Box 2821 Woodlawn Station, Birmingham 6, Ala., offers an interesting layout. Living room and porch are on the rear facing a landscaped garden. Access to the porch from both living room and kitchen facilitates outdoor dining. A center entrance hall, seldom found in small homes, is another feature of this plan. A well lighted dinette has a bay window on the front. A low roof pitch makes for economy in construction. This house covers an area of 988 square feet, of which the porch comprises 99 square feet. A part basement of about 250 square feet can accommodate a gravity warm air heating plant and storage space. Suggested specifications include exterior walls of frame, brick veneer, or concrete blocks; roof of composition shingles; plastered interior walls and ceilings; hardwood floors throughout except in bath and kitchen where pine floors are covered with linoleum.
