last month were \$61,903.18, compared with \$44,805.31 in April, 1947.

While mailing of the state voters' pamphlet last month made some difference, it was believed that the pamphlets added only about \$5,000 to the total. Gragg said political mailing was rather light during April, but was expected to increase greatly this month.

NOW Transmits **2 TO 6 TIMES MORE SOUND INTENSITY!**

WORLD'S SMALLEST HEARING AID!

THIS IS ALL YOU WEAR

Look again at the picture! Here is a hearing aid complete in one unit so small it fits the tiny watch pocket of a man's trousers! A new Bellone record!

Made possible by a new kind of "silver circuit" combining 45 parts and connecting into one moisture-proof, trouble-free unit.

Yet, the receiver transmits 2 to 6 times more sound intensity than any of 12 other hearing aids tested. Twice as much as even the former Bellone model! This is far more sound intensity than you probably need—or even can stand!

But note this: It means almost unbelievable clarity with the power turned way down. This means glorious hearing comfort. And cuts operation cost to a new low—less than a penny an hour.
