Guess we should have got on the band wagon and told you to come in and buy Mother's Day but we just didn't bring ourselves to do it. We'd like Mother to have a gift, sure—but not just once a year. Mother should be showered with gifts, acts of kindness and appreciative acknowledgements dozens of times a year and loved and cherished 365 days a year (366 on leap year). Today is Mother's Day—take her out for dinner, she may have liked some flowers or some other gift, too, but for pity sakes don't stop with today, do it many times throughout the year—she's your mother every day in the year—treat her that way, every day in the year, before it's too late.

## How to take 12 worries off your mind

THE FIRST-OF-THE-MONTHS, when the bills fall due, are worrisome days for many of us.

But here's a way you can lighten that pull on your pursestrings—starting in 1958 and continuing for as long as you like: Invest in U. S. Security Bonds. Start putting aside part of everything you earn now—today.

Ten years from today, you'll start collecting—collecting four dollars for every three you put in.

You can save this patriotic, automatic way by joining your firm's Payroll Savings Plan. If you're not on a payroll, you can enroll in the Bond-A-Month Plan through your bank.

Won't it be wonderful, having worry-free first-of-the-months for yourself and family?

F. S. Every bond you buy helps stabilize prices. Every dollar invested in Bonds creates an equal amount in inflationary credit.
