

U.S. Sen. Thye Of Minnesota Talks in Salem

U. S. Sen Edward Thye of Minnesota discussed the United Nations organization in a talk before Capitol Toastmasters Thursday evening in the Gold Arrow restaurant.

He likened UN to the 13 American colonies in that its ability to cope with the world situation would have to grow with experience.

Touching on the Palestine question in UN, the senator said he would favor sending military force to Palestine if that is the only way to prevent further bloodshed among the peoples of that country.

The legislator from Minnesota is in Oregon with a group of supporters for the presidential candidacy of Harold E. Stassen, a former Minnesota governor.

Pros and cons of the proposal to outlaw the communist party in this country, an issue between Stassen and Thomas E. Dewey in Oregon, were argued by club members in their weekly table-top session, conducted last night by Dewey Davis. The club was divided on the issue.

Dr. Harry Moran was toastmaster for the evening. Speakers were Kenneth Torgeson, George Naderman, Robert Baldorf, Leon Cooney and George Hewitt. Later in the evening Thye addressed the club.

FRANKFURT, Germany, Friday, May 14-(AP)—The United States air force announced today that a B-29 superfortress crashed 120 miles northwest of Dhahran, Saudi Arabia, with a possible loss of 13 lives.

The announcement, made at Wiesbaden, said one survivor was reported found. It added that nine bodies had been found and that four persons are missing.

Snow Switches Plans for Hike

Too much snow on St. Mary's peak has resulted in a "mystery hike" on the program of Salem Chemeketa this week end.

Hiking Chairman Bob Beecroft Thursday called off the scheduled St. Mary's climb and announced to members and friends a "mystery" substitute outing would be in store for them Sunday. They are to register in advance at 248 N. Commercial st. and leave from there by cars at 8 a. m. Sunday.

Beecroft asked all to bring trail lunches and canteens and to wear hiking boots good on wet trails. Margaret Peper will lead the hike.

AFL Suggests Civil Service Pay Increase

Increased salaries and vacations under civil service and death benefits and increased pensions under the public employees retirement act were favored by legislative committees of AFL state employe locals in Salem Wednesday night.

Committee members from Salem, Portland and Eugene went on record to make permanent the newly granted \$20-per-month pay boost and to provide for an additional cost - of - living adjustment of 20 per cent on the first \$100 and 5 per cent thereafter.

Under civil service the committees also recommended legislative appropriation sufficient to establish a 40-hour, 5-day week for all state institution employes, and the inclusion of some of the unclassified service into the classified service of the state.

Vacation leave of three weeks annually was proposed, on the basis of 1 1/2 working day per month calculated on a five-day work week.

In addition to minimum and increased pensions, and death benefits. Draastically reduced appropriations for public land projects have jeopardized western range and reclamation programs, he said.

Maw appealed to liberal democrats to "stand by their party and avoid the third party." He said he is an admirer of Henry Wallace, third party presidential candidate, but predicted the former vice president "has not a chance on earth of being elected."

He described Wallace as a "brilliant and sincere man," but warned "every vote for Wallace is a republican vote." He cited that every third party movement has taken out of office the party broken by the movement, and said the democrats are "in danger of losing the nation through the third party."

Maw Opposes Plan to Curb Cooperatives

Herbert Maw, Utah governor, bitterly denounced republican legislation to curb cooperatives in a Salem speech Thursday night, pointing to cooperatives as the "only hope for small farmers."

"Small farmers cannot hope to compete with large corporations marketing their products," he said. Legislation introduced in the current congress, if passed, will "ham string" American farm cooperatives, he stated.

"Cooperatives," he said, "interfere with the large corporation which sustain the republican party and accordingly they must go. If this legislation is passed, American farmers will be set back as never before."

Maw attacked republican public land policy as a "threat to logging and grazing rights in the west built up during the new deal." Draastically reduced appropriations for public land projects have jeopardized western range and reclamation programs, he said.
