

Testifies

WASHINGTON, June 11 — Economic Cooperation Administrator Paul G. Hoffman (above), tells the Senate appropriations committee that house cuts in ERP funds would virtually "eliminate" plans to put Europe back on its feet. (AP Wirephoto to the Statesman.)

Paul Hoffman, Sec. Marshall Plead for ERP

WASHINGTON, June 11 — (AP) — The "father" and the "boss" of the European recovery program said today that the program faces ruin if spending cuts voted by the house are allowed to stand.

Secretary of State Marshall said the 16-nation recovery effort will be a "calculated risk for failure" unless the senate succeeds in restoring most of the house cuts.

And Paul G. Hoffman, administrator of the program, said the cuts would practically wipe out "the most productive and the most far-reaching part" — putting European industry back on its feet.

Marshall, who first proposed the recovery plan a year ago this month, and Hoffman appeared before the senate appropriations committee.

Several republican and democratic members of the committee said the group will vote to put back most of the money which the house took out of the first-year budget for the "Marshall plan," now known as the Economic Cooperation Administration (ECA).

Draft on 'Must' List in House

WASHINGTON, June 11 — (AP) House leaders have put the draft bill on the "must" list for action next week. But whether the country will have such a law this year depends on 12 men and what they do in the next few days.

The senate yesterday passed the draft bill to call men 19 through 25 into two years service. Its vote came almost three months after President Truman asked for such a law.

Salem Seabee Reserve Unit To Organize

Salem Seabee reserves, commanded by Lt. Cmdr. Ray Webber, received official navy authorization to form an organized unit in a meeting at the Salem airport Friday night.

The order, Webber said, came from 13th naval district headquarters in Seattle, and permits the local reserve to sign recruits and assign rates under a new rating structure contained in the same order.

Lt. Cmdr. H. A. Jackson, Seabee reserve commander for the 13th naval district, wired Webber Friday from Fort Huachuca, Calif., stating he will be in Salem at next month's meeting to outline the official Seabee training program to be followed when organization is completed.

The volunteers have been meeting on the second Friday of each month without pay under the voluntary (V-6) program. Next month's meeting — the last under the V-6 status — will be held at the airport July 9. After that date the unit will operate on an organized basis, receiving reserve pay for weekly training sessions, Webber said.

Rates under the new structure introduced Friday night are for surveyors, construction electricians, mechanics, construction operators, mechanics, builders, field workers and utility men. The unit will have openings for both rated men and seaman recruits, both navy and army veterans included.

Three new enlistees at the meeting were J. A. Mathman, a shipfitter, M. E. Clemens, an electrician, and K. E. Wechter, a carpenter's mate.

Idanha-Detroit District Seeks Deputy Sheriff

A petition seeking a deputy sheriff for the Idanha - Detroit district was filed with the Marion county court Friday and taken under advisement.

The petition contained 185 signatures including over 30 representatives of business, civic, women and veterans organizations. Addison Vickers, justice of the peace of the Breitenbush district, presented the petition to the court.

Population of that area, he said, has grown in the past two years from 1,500 to 2,000 and when work on the dam starts it is expected the figure will climb to 8,000 or 7,000.

Vickers said the state attorney general has ruled that if a deputy is established in that district, a jail can be set up. Savings on the current expenses of bringing a prisoner to the county jail in Salem and then returning him to Idanha for hearing would probably pay for the deputy, he declared.

Request of Sheriff Denver Young for just such a deputy was rejected by the county budget committee several weeks ago.

Dirigible Plans Advance Step

WASHINGTON, June 11 — (AP) — Plans for huge commercial dirigibles — capable of flying oceans with hundreds of passengers and tons of freight — advanced a step today.

A senate-house conference committee agreed upon legislation directing the maritime commission to make a study for congress on development and operation of the super airships.

Senator Brewster (R-Me), one of the conferees, said the proposed aircraft would cost between \$10,000,000 and \$20,000,000 each.

UNION ACCEPTS RAISE

NEW YORK, June 11 — (AP) — The CIO United Electrical Workers' leadership agreed today to take an 8 per cent wage boost offered by the General Electric Co. for 125,000 union employees.

Danish Steamer Sinks After Hitting Mine

COPENHAGEN, June 11 — Superstructure of the Danish passenger vessel Kjoeben Aften remains above water after the steamer hit a mine and sank in shallow water in the Kattegat, off Aalborg, Denmark. The ship, traveling between Copenhagen and Aalborg, was carrying 400 passengers and a company official said 150 of the passengers and crew members were unaccounted for several hours after the accident. (AP Wirephoto via radio from London to The Statesman) (Story on page 1.)

West Salem Council Votes Assessment

WEST SALEM, June 11 (Special) — The city council, meeting in a special session tonight, unanimously approved a \$12,695 assessment for paving Seventh street from Patterson avenue to Wallace road.

The \$12,695 assessment will be levied on owners of property abutting Seventh street, and the funds will be used to match \$15,000 already allocated for the project by the state highway commission.

The state appropriation comes from a special fund created by the 1947 legislature to assist small cities with road construction to handle traffic at critical points.

The street will be 40 feet wide, of blacktop and about 1,600 feet long. Also included in the project will be installation of curbs and a drainage system to extend the full length of the paving.

Mayor Walter Musgrave said the highway commission will call for bids immediately, and that the work should be started about July 20. Nine days will be required for the paving and 12 days for installation of the drains, Musgrave stated.

Fire Starts in Sulphur Bin

City firemen were called to the Oregon Pulp and Paper company Friday morning when fire broke out in the sulphur bin of the paper division.

Firemen said the blaze was started by static electricity created by a broken chain rubbing on the conveyor belt. The fire was controlled within few minutes and caused only slight damage.

A short in an electric plate at the Blue Line cafe, 280 Chemsaketa st., caught fire to a wall in back of the range, and melted a nearby gas meter before being extinguished by firemen Friday night.

Grange Calls For Flood Aid

ASTORIA, Ore., June 11 — (AP) — The Oregon State Grange closed its annual convention today with recommendations for a flood relief program for Oregon farmers.

Delegates asked the federal government to make outright grants in aid to farmers; to issue quickly disaster loans; to provide funds for repair of dikes; to start at once constructing multi-purpose dams, particularly such flood control projects as Hell's canyon dam on the Snake river.

The state was asked to hold open milk quotas for flooded — out dairymen, and to study the possibility of a moratorium on property taxes on flood-damaged farms.

PAY RAISE REJECTED

PITTSBURGH, June 11 — (AP) — The CIO United Electrical, Radio & Machine workers union today rejected a six per cent wage increase offered its 75,000 members by the Westinghouse Electric Corp.

Australia Adds Sympathy Note

The governor's office here Friday received a telegram from Prime Minister J. E. Chifley of Australia in which he expressed sincere regret of the recent flood disaster at Vanport.

"I have learned with profound regret of the disaster which has befallen Vanport City, Oregon," the telegram read. "Please convey to the governor and to residents of the stricken area the deepest sympathy of the government and people of Australia."

Taft Berates Truman, Asks Congress Quit

PHILADELPHIA, June 11 — (AP) — Ohio's Senator Robert A. Taft said today President Truman "is black-guarding congress at every whistle stop in the west." He called for an immediate adjournment of the congress.

The GOP presidential candidate said there is "little use" in keeping congress in session while President Truman is delivering "an attack on the principles of representative government itself."

In a major address 12 days before the republican national convention opens here, Taft declared "we had better adjourn now and appeal to the people in November for a vote of confidence in the election of a president who will cooperate in our program."

"There is little use in our working day and night to complete constructive programs when we have a president whose attitude towards congress and its philosophy is that of President Truman," he said.

Landlords May Ask Deposit

Landlords operating under rental agreements may demand a security deposit not to exceed an additional month's rent if they adhered to the practice prior to Jan. 30, 1942, E. Daryl Mabee, area rent director, advised in Salem Friday.

"The policy of the local office will be to permit the collection of the last month's rent pursuant to a written lease, but no security deposit in the form of advanced rent will be permitted under verbal agreements," Mabee warned.

Mabee said the practice is in line with the national procedure prior to federal control.

Hearing Set on UAL Petition

Hearing on the application of the United Air Lines for permission to operate as a contract carrier of passengers and their baggage between Portland, on one hand, and the Portland municipal airport, Troutdale airport and the Salem airport on the other hand, has been set for June 16 in Portland, Public Utilities Commissioner John H. Carkin announced here Friday.

Everett Edmiston, Reith, filed application for a permit to operate as a motor carrier of passengers and hand baggage between Reith and Pendleton via old U. S. highway route No. 30 and new U. S. highway route No. 30A. Hearing will be held at Umatilla on June 24.

Poles Say British Keeping Children

WARSAW, Poland, June 11 — (AP) — Poland accused British authorities in Germany today of failing to return thousands of Polish children kidnapped by nazis during the war.

A government spokesman, Gen. Viktor Grosz, told a news conference the "Polish government will never cease fighting for our children and sooner or later will get them back."

Grosz estimated 200,000 children were taken away by the Germans, and said a majority were now in the British zone.

Man Charged With Being Short-Changer

A short-change artist, identified by city police as the man who has talked several Salem cashiers out of sizeable sums of money recently, faces a larceny charge in Marion county district court today.

Jack L. Higgins, a transient, was arrested by city detectives Friday afternoon after two women cashiers identified him as the man who defrauded them with a smooth routine.

The complaint was signed by Evelyn Duiham, 610 S. 18th st., cashier at the Midget market. Miss Duiham told detectives that Higgins approached her Friday with a small purchase, tendering a \$20 bill for payment. After receiving change, Higgins said he had meant to cash a \$1 bill, cashed it and then talked until he got his \$20 back, Miss Duiham stated.

A clerk at Busick's store also identified Higgins as the man who pulled a similar routine to defraud her recently, but said he talked so fast she hadn't yet figured out whether she was short \$10 or \$20.

Rose Show to Open Today

Salem's own rose show will open in the armory at 2 o'clock this afternoon and run through Sunday.

The show was transferred from the YMCA gymnasium to the armory this year in order to accommodate the greatly increased number of entries.

Ollie Schendel, chairman of the show committee of the Salem Rose society which is sponsoring the event, said that a visit to a number of rose gardens in the Salem area had shown the blooms to be at their prime this week.

Exhibitors will begin placing their entries at 8:30 this morning and judging of the exhibits will be started at 12:30. All of the ribbons will be in place by 2 o'clock. The public will be admitted from 2 p. m. to 9 p. m. today and from 10 a. m. to 8 p. m. Sunday.

Argentine Decree Aims at Inflation

BUENOS AIRES, June 11 — (AP) — The Argentine government today ordered all employers to pay future wage increases out of company profit. The decree also prohibits higher wage costs from being passed on in the form of higher prices.

Federal police and price inspectors have been ordered to enforce the new law.

Fox Killed in Chicken Coop

A female red fox, believed the killer of dozens of chickens and sheep in the Quinaby area recently, made her last raid early Friday morning.

The raider was killed with a shotgun blast by R. M. Diem, Salem route 3 farmer, who has lost several chickens during the past week. Diem said the well-fed fox slew 12 of his hens in an early morning raid Friday and was stalking four more chickens a short time later when he cornered her near his house.

Diem and neighboring farmers said they believed several of the animals living in a den nearby are responsible for their losses.
