CHICAGO, June 11-(AP)-Wheat tried to join in with a rise in feed grains today, but the bread cereal could not stir up any buying enthusiasm. While both corn and oats ended higher on the board of trade, wheat wound up with small

Wheat was held in check by a government forecast of a combined winter and spring crop of 1,192,-425,000 bushels, second largest in the nation's history.

Some corn and oats buying came from eastern commission houses and some represented short covering by local traders. Buying of both grains was traced to failure of the mid-west to get moisture over-

Wheat ended in to 1 cent lower, July \$2.2834-12, corn was 78 to 2 cents higher, July \$2.2014-12, oats were %-114 higher, July 9412-58. and soybeans were 412-734 lower, July \$4.1814.

Most grain men thought the wheat crop forecast was highly "bearish" on prices, but the grain did not show pronounced weakness. Prices are so near the government loan level that no aggressive selling developed, traders said. In 9th addition, the government continues | 1080-R to buy in excess of 1,000,000 bushels of cash wheat a day.

Oils, Aircrafts Finish High

NEW YORK, June 11-(AP)-Oil shares put on a late burst of speed and finished neck and neck with aircraft issues in the stock market

New highs for the year or longer were hit in each group with gains ranging to more than two points, The balance of the wheat moved along more or less aimlessly. The Associated Press average of

60 stocks was unchanged at 71.2. which is a 21-month high established yesterday. The industrial component of the averages, however, moved up 2 of one point to 98 6, a new top since August 1946.

Italian talc, noted for its high purity, is almost 99 per cent magnesium silicate
