NEW YORK, June 22-(AP)—Railroad stocks put on a burst of speed today that left the rest of the market far in the rear.

In one of the fastest runs of the year, leading carrier issues pounded ahead for gains of 1 to 5 points. The balance of the market puttered around in a narrow price range with small losses slightly outweighing equally small gains.

The market started off on a slower track. Before noon buying orders for rails started to come in at a faster rate, and from then on they were on a one-way track going ahead. Several hit new highs for the year or longer.

Volume quickened as the rails took over market leadership but turnover for the day dropped to 140,000 shares from 1,750,000 Monday.
