General Rise in Stock Market

NEW YORK, June 30—(AP)—The stock market finished the first half of 1948 today with a general advance that carried prices near to a 22-month high. The high was reached on June 10. Rails and oils stole the show with advances running to more than 5 points. Most gains, though, were fractional.

The market dawdled along more or less aimlessly most of the day but during late trading demand became a little more insistent.

Volume was unusually small for a while, then picked up. At that, sales totaled only 990,000 shares. This compared with 820,000 yesterday which was one of the slowest of the past three months.

The financial district didn't have much in the way of news to explain the improvement.

The Associated Press average of 60 stocks advanced .6 of one point to 71.3. This compared with 71.7, the 22-month high reached on June 10. The rail component of the index jumped .8 of one point to 46.1, a new high since 1946.

Only 995 issues appeared on the ticker tape. Of these 513 advanced and 248 declined.
