

# Council Bars Parking During Rush Hours in Hollywood Area; Studies South Salem Problem

(Council news also on page 1)

In a move to expedite Hollywood district traffic in the evening rush hours, the Salem city council Monday night decided to prohibit parking on either Fairgrounds road or North Capitol street from their junction south to Hunt street between 4:30 and 6:30 p.m.

This restriction will permit four lanes of traffic on the Pacific highway in the vicinity of the traffic light at the Capitol-Fairgrounds junction, said City Manager J. L. Franzen. The no-parking plan was presented by the North Salem Business association.

South Salem parking and traffic problems will be studied by the city manager following a petition of 15 merchants and residents along South Commercial street between Mission and Miller streets. They sought a 30-minute parking restriction on the west side of Commercial, but the city manager said he doubted this restriction could be policed with available manpower on the police force.

Another congested business area to be reported on at the next council meeting by City Manager Franzen is the State and 12th streets section where merchants have complained of all-day parking since Willamette university students returned for the fall term and found new parking restrictions on 12th street in front of Baxter hall.

Action on railroad crossing improvements again was forecast at the Monday night council meeting, when City Attorney Chris Kowitz reported he was studying legal action which can be taken to force both Southern Pacific and Oregon Electric to repair crossings which are in bad condition throughout the city. City Manager Franzen said neither railroad has made promised improvements this summer.

The council ordered that barricades at the building site at State and Liberty streets be immediately removed from the street. Franzen reported that owners of the property where the Guardian building burned and subsequently was torn down have been delayed in new construction by scarcity of reinforcing steel. Several aldermen, however, commented that the long-barricaded corner has been an eyesore and traffic hazard long enough.

Other council action last night: Rejected a request for 64-foot automobile loading zone at North Church street site for new Greyhound bus terminal.

Authorized taxi stand on Court street at the High street corner for Eddie's de Luxe Cab Co. in place of its present High street stand around the corner.

Reconsidered previous action

## Newspapermen Told Outlook for Future Not Bright

CHICAGO, Sept. 27.—(AP)—Despite peak circulation and advertising volume, the outlook for long continued newspaper prosperity is not "too bright," a group of newspaper business executives was told today.

Robert U. Brown, editor of Editor & Publisher, said in a talk prepared for the institute of newspaper controllers and finance officers that newspaper production costs are rising faster than revenues.

He said newspaper expenses, especially labor costs, rarely decline and that any payroll economics usually have to be obtained through a cut in manpower. He added: "The price of newsprint, now more than twice what it was pre-war, doesn't show the slightest inclination to fall off, and the same goes for the cost of machinery, for ink, pencils, rubber bands, and anything else you can think of in a newspaper."

Instructed the city manager to arrange a meeting with Southern Pacific officials to discuss long range planning commission's proposal for a 13th street railroad tunnel.

Tabled alley vacation bills affecting North Capitol street site for new retail center, pending preparation of alternate measure calling for new alley allowances on property.

Funeral services were held Monday in Sebastopol.

## Frank Nelson Taken by Death

SILVERTON, Sept. 27.—Frank Nelson, 76, farmer in the Silverton Hills area for many years, died of pneumonia last week in Sebastopol, Calif.

Nelson came to Silverton in 1905 and operated a large farm until three years ago when he retired and moved to California. Surviving are two brothers, Edward and Andrew Nelson, both of Sebastopol.

Funeral services were held Monday in Sebastopol.

## Hall Urges Observance of Fire Prevention Week

Observance of "Fire Prevention week," October 3 to 9, was urged by Gov. John H. Hall in a statement released Monday.

"The seriousness of the annual loss by fire of 10,000 American deaths and upwards of three-quarters of a billion of American property justifies the designation of a single week each year during which nation-wide attention may be focused on the fire loss problem," Governor Hall said.

## Silverton Church Plans To Purchase New Organ

SILVERTON—Plans have been completed for the purchase of an electric organ for the Methodist church to be installed by Christmas.

Men of the congregation are painting the steps and front of the church, the women are painting the interior of the Sunday school rooms. Four new classes have been organized in recent weeks.

A baked food sale will be held at the Western Auto store, Saturday, October 2, with proceeds to apply on purchase of an elevator for the Old People's home at Salem.

INTERVIEW APPROVED NEW YORK, Sept. 27.—(AP)—The house un-American activities committee can interview Mrs. Oksana S. Kasenkina, Russian school teacher, "anytime after Wednesday," her attending physician said.

When lightning strikes a tree, the heat generated often causes the sap to boil and evaporate.

## Whitman House Foundations Add Details to Pioneer Story

WALLA WALLA, Sept. 25.—(AP)—Foundations of the first house built by Dr. and Mrs. Marcus Whitman have been uncovered at the site of the Whitman mission near Walla Walla.

Thomas R. Garth, archeologist and custodian of the "Whitman national monument," hailed the find as of great value in lining out details of the Whitman story.

The Whitman mission was wiped out November 29, 1847 when Indians massacred Dr. and Mrs. Whitman and 12 others.

Cause of the massacre has been a subject of controversy but a Cayuse chief, Istikus, advised Dr. Whitman that a Canadian Indian befriended by the missionary had told Istikus people that the doctor was poisoning the natives "so as to give their country to his own people."

Measles, dysentery. Many of the Indians and whites were ill at the time from measles and dysentery.

The Whitmans built the first house in the fall of 1836. It was 30 by 36 feet and served as their living quarters until a larger house was built four years later.

Garth said the first house was used for storage, although the Whitmans cooked on the huge fireplace during hot weather.

Garth said that it was necessary to move to the new house because the old one had twice been damaged by the flooded Walla Walla river. Workers uncovered several points where the walls had buckled.

The front portion of the house was built of adobe brick while the back was a log lean-to. Garth said the cellar bricks are rough and hard still, showing the turblurty of the mud and straw construction.

Excavation is now going on at the site of the second house. Here foundations of partitions are visible and the house follows

## Clearing for Power Line to Start Soon

MILL CITY—Work will begin shortly on clearing right of way for the Bonneville power line through the North Santiam canyon to the site of the Detroit dam, R. W. Evers of the BPA office in Ridge, Calif., announced when in Mill City recently.

Bonneville acquired the right of way for the 230,000-volt power line last spring on the 1947-48 appropriation from congress. This year's appropriation permits the government agency to go ahead with construction.

Garth said the excavating indicates that the level of the land has risen about 18 inches since the time of Dr. Whitman.

A medicine bottle with a glass stopper was found in what was known as the Indian room. Garth said some medicine, both liquid and caked, was in the bottle.

It was believed that the Indian room was occupied by the Osborne family just prior to the massacre. Finding of the bottle seems to substantiate this belief because Mrs. Osborne had just recovered from a serious illness.

The Osbornes hid under the floor boards of this room as the massacre began, remaining there all night. When the Indians left, they were able to escape.

Several peg false teeth also were found in this room.

Custodian Garth said that plans for a new \$70,000 museum have been completed and work will start when the money becomes available. The museum will be across the highway from the mission site.

## President Raps GOP 'Lullaby' Of Unity in Texas Campaigning

By Douglas B. Cornell BONHAM, Tex., Sept. 27.—(AP)—President Truman rejected tonight a republican "Lullaby" of unity and pledged the democrats to unite the nation for the benefit of the "ordinary folks."

Campaigning from daybreak on into the night in Northern Texas, Mr. Truman said nothing he can say about the republicans "is as bad as their record." He said it would be "disastrous" for the republican party to say whom it is working for.

In his speech here, the president posted a "storm warning" against picking a republican president and said "you can't expect anyone under an obligation to Joe Grundy" to change the high-tariff GOP.

Mr. Truman made no mention by name of republican presidential candidate Thomas E. Dewey, who has been preaching "unity" and promising teamwork with congress if he wins in November.

The republicans, the president said, don't actually want unity, but "surrender. And he said he doesn't intend to surrender and doesn't believe the people will, either."

In a speech at Dallas, the chief executive said the G. O. P. wants the kind of unity that benefits the National association of Manufacturers, the power and real estate lobbies and the selfish interests of

the country.

"The democratic party," he pledged, "will unite the American people -- and it will unite them, not for the benefit of big business, but for the benefit of the ordinary folks in this country who have made this country great."

Later at Bonham, he said he didn't want the kind of unity that would let prices go "sky high" and ease taxes for the rich.

In an address prepared for delivery in the high school stadium here, Mr. Truman tied together the topics of tariffs, world trade, foreign policy and peace.

He said the G. O. P. crippled the reciprocal trade agreements program in the 80th congress, and next year "they want to kill the program entirely."

"The 80th congress," he said, "has shown the republican party is still the high-tariff party of Smoot and Hawley and Joe Grundy."

"And you can't expect anyone under an obligation to Joe Grundy to change it into some other kind of party."

He was speaking of former Senator Joseph P. Grundy, a power in Pennsylvania republican politics for years. The Grundy wing of the party in the state was credited with wielding a major influence in swinging the presidential nomination to Dewey.

to approve speedily Count Folke Bernadotte's Palestine peace plan. He termed it the "best hope for healing the breach" between the Arabs and the Jews.

CZECH LOAN GRANTED WASHINGTON, Sept. 27.—(AP)—A \$6,000,000 loan to Czechoslovakia, the first such credit granted in the soviet sphere, was announced by the international monetary fund today.

## Five More Arrested In Plot to Kill Peron

LA PLATA, Argentina, Sept. 27.—(AP)—Police arrested five more persons today in what President Juan Peron said was a plot to kill him and his actress wife and seize the government.

Peron said John Griffith, former cultural attache of the U. S. embassy, was leader of the plot. Griffith, in Uruguay, called the charges "detective story" and persecution.

The proposed prosecutions would be under the 1917 espionage act, which provides a maximum penalty of death or up to 30 years imprisonment.

The committee also said a mysterious "scientist X" should "either be prosecuted forthwith or cleared." That is a separate west coast case.

## Two Scientists On Spy Trials Proposed List

WASHINGTON, Sept. 27.—(AP)—Spy trials for four persons—including two atom bomb scientists and a communist party official—were urged today by the house un-American activities committee.

A 36-page report, in which the committee said it has been able so far only to "scratch the surface" of atomic spy activities in this country, recommended these legal actions:

1. Prosecution of Steve Nelson, communist party organizer in Pennsylvania, on charges of outright espionage, and citation of Nelson for contempt of congress for refusing to answer committee questions.

2. Prosecution of Dr. Clarence F. Hiskey, his former wife, Marcia Sand Hiskey, and Dr. John H. Chapin on charges of conspiracy to commit espionage, Hiskey and Chapin were atomic bomb project scientists during the war.

The committee accused the latter trio of conspiring with one Arthur Adams to pass along to Adams secret information on their work in New York and Chicago
