## Don't Look Now...

but... have you noticed how many people (and we are one of them) have trouble remembering five digits in their telephone numbers. Almost always they'll say "3", draw a breath of relief, and then go on with the number. Poor things, our intellect only carries us through a short string of numbers.

**Stretch a point**... we note that a radio station is offering prizes for letters about our favorite program on that station; letters will be judged on, among other things, sincerity. You can enter every week for five times... and that's stretching one's sincerity a bit too far, we think.

**Smart merchandising**... Why do the food manufacturers let the clothing stylists set the fashion? Why doesn't some smart promotion man make chubbiness a high style? Think of the potentialities. The ice cream companies, butter people, ice cream men, mayonnaise manufacturers, candy

makers, bakers and avocado growers could sell twice as much with half the energy it takes to try to convince the ladies their product isn't fattening. And, finally, what woman wouldn't sacrifice lettuce, vegetable juices and dry toast for fats and sweets any day if it's fashionable. And secretly, we know a few men who might attempt this new, new figure too.

**Little debbil**... We've always wanted to shout "fire" when we are standing in a long line at the bank some busy Saturday morning. But we'd clear the place of people with paper money anyway.

**Place to dream**... The stores showing these beautiful all metal kitchens or lovely wooden custom-built affairs, should provide easy chairs so the women can sit and dream. A woman can't stand much of that sort of thing, you know, and can do a lot of scheming in a place like that.
