Salem Facilities for Handling Juvenile Cases Said on Par With Neighbor Communities

Although Marion county's juvenile problems are not as bad as in some other Oregon and California localities, facilities for handling them here are about on a par with neighboring communities. Dalbert Jepsen, Marion county assistant probation officer, said Monday. Jepsen had returned from the fifth annual conference of the Oregon juvenile council held in Klamath Falls last week. As president, he presided over the three-day affair which probed juvenile problems as they concerned the family. "Our detention facilities in Marion county are not as good as the new juvenile building recently built in Klamath Falls," Jepsen said. "On the other hand, juvenile wards in Marion county jail and Memorial hospital are better than in many other Oregon counties."

Juvenile problems in Oregon are not quite as complicated as in California, where racial conflicts also muddy the picture," he stated. San Joaquin county, about the size of Marion, has eight probation officers (Marion has two) and Los Angeles county has 700. A major problem in combating juvenile delinquency is the acute shortage of trained workers in the field, it was brought out at the conference.

It was noted, however, that during the past year probation officers had been established in Yamhill, Tillamook and Harney counties and one is to be established next month in Linn county, Jepsen reported.

Among new officers elected in the council were Leonard Lindas, deputy district attorney of Clackamas county in Oregon City, presi-

OUT OF THE PAST...

1924 — EVEN UP: The University of Washington and Navy play to 14 to 14 tie in the Rose Bowl.

1925 — TOPS AGAIN: The U. of Washington Varsity crew wins the Poughkeepsie race. Washington's Jayves crew is second to Penn.

1926 — CINDERELLA MAMA: James J. Brodock takes the heavyweight title from Max Baer by decision in 15 rounds at New York.

1927 — BELTING BARNEY: Barney Ross defeated B. J. Gans in Portland in the 2nd round of a scheduled 10 round fight. He then defeated Henry Woods in 12 rounds in Seattle.

1927 — ALL ALONE: Pat McGee, a senior at St. Peter's High, Fairmont, W. Va., in a basketball game against the sophomores had to finish alone for his team. With the score tied at 32-32 all Pat's teammates were put out on personal fouls and for the last four minutes Pat was the only man on his team. He scored a field goal and foul to win the game, 35-32, while holding his five opponents scoreless for fouls, minutes.

1928 — HITTING HANKS: Hank Greenberg of the Detroit Tigers clouted two home runs in one game, doing this ten times during the 1928 season.

1929 — SECOND GONE: Finky Higgins got 12 hits in 12 times at bat, thus smashing the record held by the great Tris Speaker.

1948 — NICE WORK: Do you know that there are six umpires in the world series. Four regulars, who are paid \$2500 for the series and \$18 per day expenses. The two "emergency umpires" who are paid \$750 for the series and expenses.

PROPOSED FRANCHISE HAS NO TIME LIMIT!

Sham "Non-Profit" Organization Attempting to Chain City Permanently to Tax Subsidy Scheme

Why should any utility be given a perpetual franchise that attempts to bind the city no matter what opportunities or unforeseen problems develop in the future?

The proposed Salem Electric Franchise and Tax Subsidy places no time limit on the number of years it would be in effect!

What will be its program in 1960... 1960... 1975? It doesn't say! It takes a blank check on Salem's future. It wants a profit from Salem's growth out... above everything... it wants no obligation to guarantee or develop electric service and it doesn't want to pay taxes that help Salem grow.

In the early days perpetual franchises sometimes were granted to utility companies. But in 1931 the Oregon legislature held this practice to be against the public interest, and passed a state law barring municipalities from granting a franchise

longer than 20 years.

Salem Electric knows that it could not induce the city council to grant an illegal franchise—but Salem Electric is attempting to trick voters into granting one.

You should oppose granting any utility a perpetual franchise. Franchises should run for a period of years—5, 10 or 20. Then, if the utility gives bad service, the city can get rid of it.

Because it operates under the sham of a "non-profit" organization, Salem Electric pays almost no taxes and nothing directly toward the support of Salem schools. It doesn't pay state and federal income taxes. The result: YOU pay its fair share! Do you want to grant this tax exemption for all time—no matter how large it grows, no matter how much Salem Electric profits from the city's growth that is nourished by YOUR taxes?

Don't Be Duped! Don't Give Salem Electric or Anyone Else a Permanent Franchise, a Perpetual Tax Subsidy!
