## Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up nights. Frequent or scanty passages of urine, backache, sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and let it get worse. When disorder of kidney function poisons the blood, it may also cause rheumatism, headache, pain, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches, and dizziness. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisons from your blood. Get Doan's Pills.
