## STOP— loosening your skin!

MAKE THIS TEST!  
You will be shocked to find out  
how loose your skin really is!

**DO THIS!** Sit before your mirror. Do exactly as the girl is doing in the picture above. If folds of skin roll up under your eyes, you have loose skin! This loose skin may easily wrinkle too soon causing you to look much older than you really are!

Millions are actually loosening delicate skin tissues around their eyes in the very act of creaming their skins.

But this old way of skin care is rapidly being discarded. Well informed women are adopting modern skin care that ends destructive rubbing.

My Lady Esther 4 Purpose Face Cream is self-acting. No more need for rubbing at all. Think what this means!

When you use my cream that requires no rubbing, you are not loosening your skin—you are not deepening fine lines! In short, you stop helping your skin to grow loose and older looking. You help to preserve the tone, elasticity and smoothness your skin naturally possesses.

**Clearer Skin, Too, The First Day**

What's more, I can promise you a clearer skin the first day you stop rubbing dirt-laden cream back into tiny skin crevices and into pore mouths.

Here's why. The cleansing ingredient in Lady Esther 4 Purpose Face Cream is self-acting—it has the power to surround each tiny particle of stale make-up and grime and separate it from the skin. It literally lifts dirt away from your skin! No destructive rubbing is necessary—just smooth it on and tissue it off!

**What to Expect**

Your first trial will convince you that my 4 Purpose Face Cream is self-acting (no more rubbing) and that it makes your skin far cleaner than before, without rubbing.

So get any size jar—even the smallest size is ample to prove that you don't have to rub your skin any more to clean it.

And remember, this one cream does 4 things for your skin. Besides self-acting cleansing—it smooths!—it aids the natural pore-refining process!—and it makes a perfect powder base!

Lady Esther
