At Salem Schools

LESLIE JUNIOR HIGH

Effects of a population shift to the Pacific northwest region were quite revealing in a survey made recently at Leslie junior high school. Only 181 pupils, 28 per cent, of the 641 pupils enrolled in the school this year were born in Salem, the survey disclosed, while 146 students, 23 per cent, were born elsewhere in Oregon. A total of 314 pupils, just under 50 per cent, were born out of state.

Of this number, the central states contributed 173. The neighboring states of Washington, California and Idaho are represented by 69 students. Thirty-seven students are from the Rocky Mountain area.

One pupil was born in England, another in Alaska and three in Canada.

That the migration to Oregon may have dropped off a little was indicated by the fact that only 62 of the students enrolled have moved to Salem within the past year. Of these 22 came from other points in Oregon, 22 others from western states and 13 from the Midwest.

Court Upholds Judge Page

The state supreme court Tuesday upheld a decision by Marion County Circuit Judge E. M. Page in the case of E. V. Gwaltney vs the Pioneer Trust company.

Page had ruled in favor of the trust company in a suit for specific performance of a contract between the company and Gwaltney which was appealed to the higher court.

The high court also affirmed

the Multnomah county circuit court which awarded Merton C. Dunning a \$20,000 judgment against the Northwestern Electric company. Dunning alleged he was injured when his pickup truck collided with a power pole which had fallen across a highway east of the Vancouver, Wash., city limits.
