Chemicals Up Stock Prices; Split Proposed

By Rader Winget

NEW YORK, Dec. 20 -(AP)- Chemicals boosted the stock market out of a narrow range today sending average prices slightly higher.

A late up trend started when DuPont directors proposed a four for one stock split. DuPont jumped nearly nine points and closed up 8⅛ at 179¾.

Subject to stockholders approval at a meeting April 11, the split will become effective about June 1.

At the same time Allied Chemical gained 4½ at 179, on the possible theory that it was in the high price range where splits are logical.

The Associated Press average of 60 stocks gained .2 of a point at 64.3, the best rise in more than a week. The industrial component was up .6 of a point, and rails and utilities were unchanged.

The volume of grading was comparatively low at 980,000 shares, of 1,060 issues traded, 343 advanced and 417 declined. There were 57 new lows for the year reached, and one issue made a new high.

Wheat Closes Higher After Shaky Opening

By William Ferris

CHICAGO, Dec. 20 -(AP)- Wheat ended with a show of strength on the board of trade today after shaking off some early faint-heartedness. The bread cereal closed with gains extending to a cent, giving the best performance of all grains.

Corn and oats ended with small losses. They reversed the action of wheat, staring off firm and then sliding late in the day. Action of three major grains indicated there may have been some switching of positions by local traders.

Wheat closed ⅜ to 1 cent higher, corn was ⅛-⅞ lower, oats were ⅛-⅜ lower, rye was ½-1½ higher, soybeans were ¾ lower to 2½ higher and lard was 10 to 37 cents a hundred pounds higher.

Major prop for the wheat buying was a decline in receipts of the cash grain at most terminals. Wheat prices have fallen back below a point where it is profitable to redeem wheat under the government loan and sell it in the free market, grain men said.

The game of quoits apparently originated along the borders of England and Scotland in the 15th century.
