Wheat Holds Firm Tone in Grain Market

CHICAGO, Jan. 12 —(AP)— Although most commodities ended lower on the board of trade today, wheat displayed a firm tone. The bread cereal started out higher, sank below the previous close in a general selling movement around mid-day, and then came back to end with modest gains.

Dealings were fairly active. Wheat closed ⅛-⅜ higher, corn was unchanged to ⅜ lower, oats were unchanged to ⅜ lower, rye was ⅛-⅜ lower, soybeans were 1½-2¼ lower and lard was 5 to 20 cents a hundred pounds lower.

Wheat was supported by an increase in domestic flour demand, announcement of additional first quarter export allocations and a statement by Senator Elmer Thomas (D-Okla) that he would push legislation to erect a nation-wide chain of elevators and warehouses.

Trade reports from the southwest said flour bookings so far this week were the largest for the past several weeks.

With the new crop wheat deliveries selling under the potential government loan level, some traders viewed the elevator chain proposal as an important price influence. One purpose is to provide sufficient storage space so that prices will not slip below the government loan as surplus wheat is unloaded on the free market.

Stock Market Stuck in Rut

NEW YORK, Jan. 12—(AP)—The stock market tried to get out of the week's narrow rut today but remained stuck fast.

Prices leaned ahead very slightly a good part of the day but there was no punch behind the buying and closing quotations showed an evenly balanced mixture of small price changes. Gains had a narrow edge over losses.

Business was skimpy and the ticker tape jogged along with many long halts. Turnover of 710,000 shares was even with yesterday and about the same as in recent sessions.

The Associated Press average of 60 stocks dipped .1 of one point to 65.5.

Today's market was even narrower than yesterday, with only 934 issues traded against 954. 370 advanced and 326 declined.
