## English Auto Dealer Finds U.S. 'Different from Movie Version'

The lightweight English-made Fords are here to stay, in the opinion of A. H. G. Garratt, sales department representative for Ford Motor Co. Ltd., of London, who visited Salem Thursday.

Garratt said he was no less pleased with the reception accorded the English automobile in this country than with the United States in general. In his first visit to "the states," Garratt is spending several months visiting dealers handling the English Fords. He has already visited some 70 dealers.

Garratt predicted the Pacific northwest will be seeing more and more of the English car which weighs but 1,800 pounds and claims gas mileage over 30 per gallon.

The English Ford representative said the majority of cars manufactured in his country are earmarked for export in order to help improve the economic condition of Great Britain. Ford of England exports four models, two passenger cars, quarter-ton and half-ton panel trucks.

Garratt said he has been greatly impressed by what he sees in the United States. He finds this country much in contrast to expectations of his fellow countrymen whose ideas of America are based on U. S. movies. He remarked that understanding between the U. S. and English peoples would be greatly enhanced if "you sent us some of your better movies which more accurately portray American life." Garratt said the impression left by American films leads an Englishman to expect in this country a gun battle on almost any city street and occasional Indian uprisings in western localities.

Garratt visited Valley Motor Co. here in company with Lee Meador, the English model sales representative of Wollard Motor Co., Portland.

## Police Seek Agates Lost in Silverton

They were brought to the school by his grandson, Paul Lanham, a member of the geology class, and used in a display for class work. The stones were left overnight for the next day's class and when the

I can't see paying 2 to 3 cents extra just for the "squeeze bag" when I buy margarine!

Nor I! Give me delicious "bowl-mix" Nucoa... It colors so evenly!

True! NO TRICK-PACKAGE COST TACKED ONTO NUCOA... YOU PAY ONLY FOR QUALITY... (And you can "bowl-mix" two pounds together as quickly as one!)

Experienced housewives from Maine to California tell us:

The real way to save money and time is to let one trip to the store, one quick "bowl-mix," give you two pounds of delicious Nucoa ready to serve. This way you do the coloring job half as often, and it's twice as quick as "squeeze mixing" one at a time!

Of course, what you—and we—hope, is that SOON you won't have to color margarine at all. Until then, we promise that not one penny of trick-package cost will be added to Nucoa. Your grocer will continue to have this top-quality margarine at modest price, ready for you to "bowl-mix" the shade of yellow you like and mold as you please for attractive servings.

SAVE TIME... "BOWL-MIX" TWO POUNDS TOGETHER

Yellow Nucoa available now in states whose laws permit sale of colored margarine. Have's hoping that SOON the law will let you have yellow Nucoa everywhere—and at no extra cost to you for Federal and state taxes and license fees.
