10-The Statesman, Salem, Ore., Wednesday, January 28, 1949 ling pushed grain futures lower in today's board of trade session. As a result May wheat reached the lowest point since November,

as did May corn. Oats, soybeans and lard followed the trend of wheat and corn and at the finish wheat for % to 2 cents lower, corn was % to 1% lower, oats were % to 1% low-er, rye was ½ to % lower, soy-beans were 2% to 3 cents lower, and lard was 22 to 32 cents a hundredweight lower.

Traders said there was nothing to support the market other than government buying. There was little commercial buying in wheat, although there was an announcement toward the close that the production and marketing administration had asked for bids on flour to be submitted at 3 p. m. today. The agency wants 200,000 hundredweight of whole wheat flour for shipment to the gulf.
