Stock Splitting Salem Market **Plan Boosts Steel Shares**

NEW YORK, Jan. 26-(AP)-U. S Steel common stock was the toas of today's market.

Orders to buy streamed into the exchange and raised the price 45% points to 771/2. The buying rush was touched off by news that directors had voted a special \$ common dividend and recommended to stockholders a proposal to split the stock on the basis of three shares for one. In addition, the company reported the largest earnings in 1948 since 1929. Interest in big steel appeared to

spread to other steel stocks. The balance of the market, though turned in a sloppy performance. While leading steels moved up fractions to around 3 points, other key issues showed a majority of losses running to above a point, The main body of stocks tried to follow the steels during the morn-

ing but couldn't make a go of it.

The steel company's announcement yesterday frankly flabbergasted most of the financial district. The news itself was not too great a surprise although it was generally agreed that the size of the special dividend, and the amount o.' fourth quarter earnings, veered on the generous size. A special and split-up have been high on Wall Street's rumor list

compared with 810,000 Tuesday.
