The joint legislative ways and means committee recommended Monday a state public welfare program costing \$55,000,000 for the transport has been program costing \$55,000,000 for the transport has been program cost in the first program cost in the p two years beginning next July 1.
It is \$10,000,000 more than for

a determined fight to get their \$50 minimum pension.

Solons Favor Rearranging Of Legislature

The senate elections and privileges committee Monday approved a house joint resolution providing that the legislature two years hence may reapportion its members, subject to suggested amendments to be considered by Rep. Phillip Hitchcock and David O'Hara, in charge of the state elections bu-

The resolution would be referred to the voters for approval or re-

The resolution, as considered by the elections and privileges committee, provides that no county shall have more than six senators and one senator shared jointly with two other counties and not more than 13 representatives and one representative shared with another county. Multnomah county now has 13 representatives and six sena-

tors.

Senator Hitchcock said the purpose of the resolution was to legalize what already has been done. He said a number of attorneys contend that reapportionment of the legislature is mandatory by the state constitution while other attorneys disagree with this interpretation.

"If we want to reapportion the legislature it should be accomplished at the 1951 session following the 1950 federal census," Hitchcock averred.

SENATE RESUMES 10 A. M. TODAY

Indians to Buy Whites' Firewater

Neuberger said the present law dates back to pioneer days when traders sold whiskey to the Indians to put them on the warpath. He contends the tribesmen got extremely intoxicated because they were not used to the spirits. He said the existing law is dis-

eriminatory, and that modern Indians don't get any drunker than white men if they over-indulge. However, the Indians still could not buy liquor even if the state restriction is repealed. There is still a federal law to keep them from buying liquor.

Natural Gas from Alberta Sought

A memorial was introduced by 12 senators Monday asking the U.S. state department to negotiate treaties with Canada and Alberta so that the proposed natural gas pipeline from Alberta to Washington and Oregon can be built.

Potato Laboratory At OSC Approved

The house passed 48 to 6 Mon-day and sent to the senate a bill appropriating \$22,500 to construct greenhouses at Oregon State college to conduct research into potato diseases and pests.
Potato growers would contrib-

The committee recommended spending \$28,500,000 for old age pensions, a slight drop from the amount requested by the commission.

It won't be enough to provide \$50 monthly misamum pensions, on the basis of the present relief roll, which were voted by the people last November. But it will be enough to provide a slight increase in pensions.

Of the total \$55,000,000 welfare program, the state would contribute \$26,236,000, mostly from sales of liquor. The federal government would pay \$19,080,000, and the counties \$9,684,000.

The \$28,500,000 pension program would be split as follows: \$14,-820,000 by the federal government, \$9,576,000 by the federal government, \$9,576,000 by the state, and \$4,104,-000 by the counties.

Other parts of the welfare program call for \$12,675,000 for general assistance, \$8,000,000 aid to dependent children and \$625,000 aid to the blind.

The whole pension program is expected to provoke a bitter fight on the house and senate floors, as old age pension groups will make a determined fight to get their \$50 minimum pension.
