See the new **DE SOTO** before you decide on any other car at any price!

Compare the others with "The Car Designed with YOU in Mind"

You cannot compare the new cars merely by looking at pictures . . . or by watching them on the highway. You've got to get behind the wheel yourself. That's why we urge you to come and see this new De Soto before you decide on any other car. You notice the difference right away. De Soto's doors are wide. You walk in . . . and keep your hat on. The steering wheel doesn't hit your knees. You're on chair-high seats, so that you get all the benefit of the larger windows and windshield. You've got full stretch-out leg room, front and back. And you've got more luggage space in that flush-floor trunk than you ever dreamed of before. Yes, De Soto is lower. It's got a longer wheelbase (all passengers ride between the axles). But there's no penalty for these advantages. Overall length and breadth are not increased. You needn't rebuild your garage. You can still change a tire. And a dented fender doesn't mean an expensive body repair job. Let us show you all the new features of the car that lets you drive without shifting. Compare it for beauty, comfort, safety and value. Then decide.
