

### School Bus Safety Law In Operation

State police emphasized yesterday that the new legislative act requiring motorists to stop when encountering a school bus that is loading or unloading children is now in operation.

The law makes it mandatory to stop when approaching from either direction a school bus halted on a two-lane highway. Vehicles must remain stopped if and so long as any children are leaving the bus or crossing the highway.

Only vehicles approaching a

stopped bus from the opposite direction while on a highway having more than two lanes are exempted from the stopping requirement, officials explained. Drivers on three or four-lane roadways must stop when approaching a school bus halted on their side of the road.

The law applies to all roads, streets and highways whether in cities or rural areas.

Initial enforcement will consist of warnings for all but flagrant violators, state police said. Arrests will be made for later offenses.
