New Teacher Lack Forecast For Next Fall

Oregon public schools will require an estimated 1,000 new teachers this fall, but the state's education colleges will be graduating only about 300 new teachers this spring.

That was the gist of an analysis of continuing teacher shortage which Salem Lions club heard Thursday noon from Dr. Louis Kaplan, director of teacher training at Oregon College of Education at Monmouth.

Dr. Kaplan noted that Oregon has 1,500 teachers under only the emergency certification covering those with less than the required training for teachers. He asserted the continued employment of "emergency" teachers holds the answer to some of the present-day criticism of results of the educational system.

The Lions luncheon crowd also heard two selections sung by the YMCA boys' chorus of 24 voices conducted by Wesley Bolliger of Willamette university.

Guests at the club luncheon were four ninth graders from the state school for the blind, Patricia Willard, Dayton; Genevieve Eachus, Nyssa; Dorothea Falcon, Mt. Vernon, and James Sozoff, Vernonia. These pupils will return from their home school districts next fall to complete their high school education.

TO ENJOY YOUR COFFEE MORE, BE

SIZE-WISE WHEN YOU BUY

Vacuum packing insures the freshness of coffee until the vacuum seal is opened. After that, air causes the coffee to begin losing freshness. Therefore, coffee should be purchased in a size of container that will be used within a week. About 40 cups of coffee beverage, rich in flavor and aroma, as well as strength, can be obtained from a pound of coffee.

If only two or three cups are made daily in your home, it's WISE to buy the half-pound SIZE of Hills Bros. Coffee.

If you average about six cups of coffee daily in your home, it's WISE to buy the one-pound SIZE of Hills Bros. Coffee.

If larger amounts are made daily in your home, or you entertain often and use a great deal of coffee, it's ECONOMY-WISE to buy the two-pound SIZE of Hills Bros. Coffee.
