

SALEM MEMORIAL

ENTRANCE LOBBY

The Memorial Hospital lobby has been completely redecorated with soft-toned colors plus an outstanding terrazzo floor. The whole effect is enhanced by two picture panels and a new picture added to the lobby completely a modern and restful atmosphere throughout.

Superintendent
Of Nurses
Salem Memorial Hospital

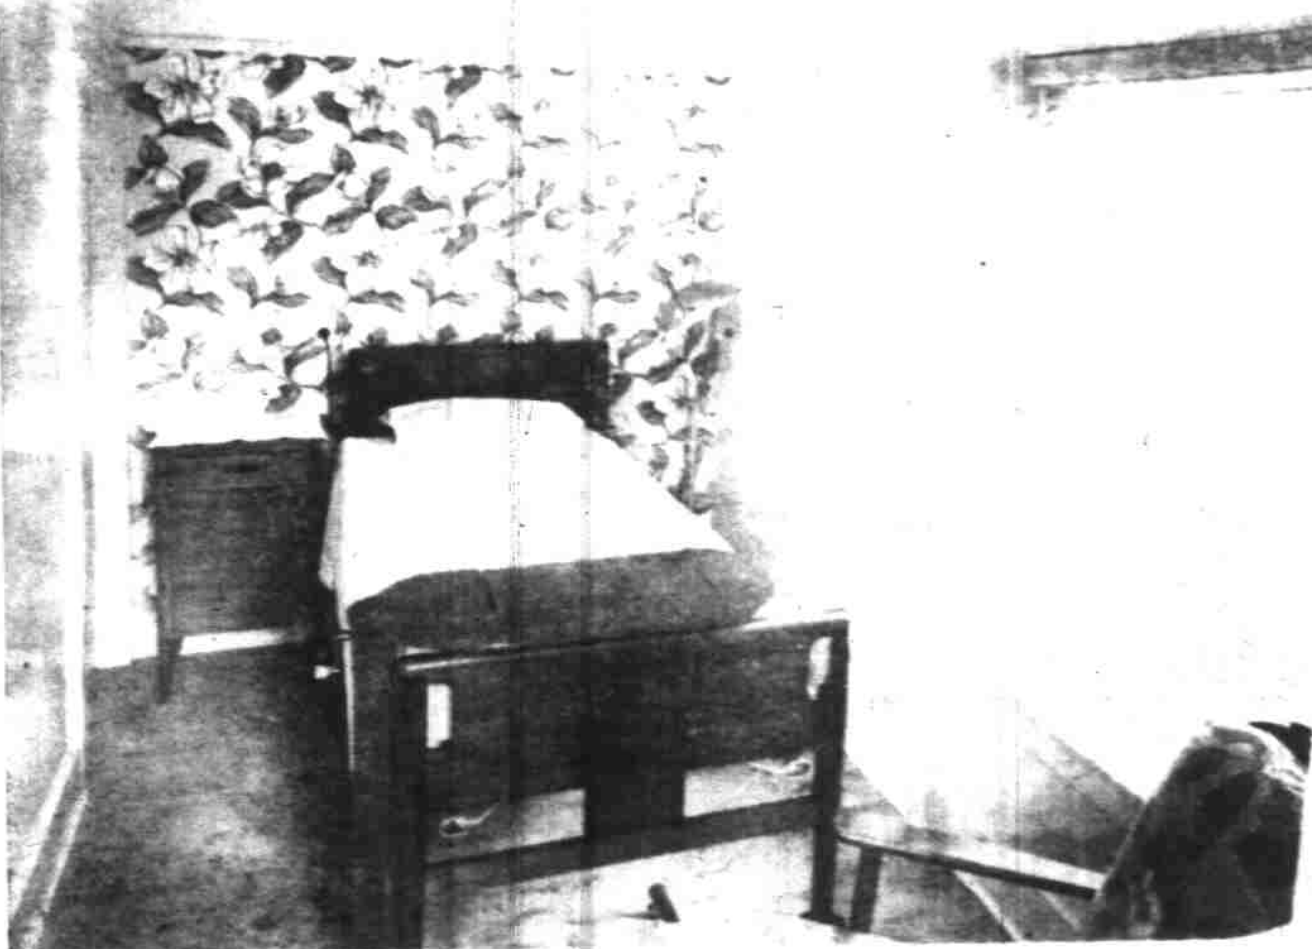

MATERNITY UNIT

The Memorial Hospital maternity department has also seen a complete face-lift, including three private labor rooms, new delivery rooms, new decorated patient rooms, using paper paneling and pleasing colors.

This modern nursery is designed to care for 24 new-born infants. It incorporates many of the new techniques which have been tested and approved in the care of babies.

Air conditioning units are being installed, giving uniform temperature and humidity in this department at all times.

PRIVATE ROOMS

This is just a sample of the 18 redecorated private rooms the Memorial Hospital has to offer. Soft-toned pastel colored walls added with new furniture and fixtures make each room into an atmosphere of peace and quiet. Be sure to see them on your tour through the Memorial Hospital.

Clinical Laboratory

The new laboratory has been carefully planned to give the maximum efficiency with the minimum of space permitted. It is complete with all the latest types of diagnostic and precision instruments, giving the doctors on our staff thoroughly modern laboratory facilities.
