

Cargo Vessel, Greek Ship Collide in Fog

LEWES, Del., June 5—(AP)—The Greek freighter, Hellenic Beach, and the 7,600-ton cargo ship Exmouth collided today in a dense fog off the Delaware coast with a gaping hole ripped in the side of the Exmouth.

Two crewmen aboard the Exmouth were injured.

The Hellenic Beach vanished into the pre-dawn mist after the crash and wasn't identified until 15 hours after the collision. It is owned by Hellenic Lines, Ltd., with offices in New York City. There was no indication of the extent of damage to the Hellenic Beach.

The Hellenic Beach docked at a Brooklyn wharf about 5:30 p.m. (EST). Officials refused to discuss the extent of damage or possible crew injuries suffered in the collision.

An SOS for Coast Guard assistance was sent out by the Exmouth's skipper after the crash at 1 a.m. (EST) at the mouth of Delaware Bay, and a pilot boat was dispatched from the Coast Guard base at Lewes. The boat took two injured crewmen from the Exmouth and removed them to Beebe hospital here. Their condition is not critical.

Coast Guardsmen halted the freighter and asked what happened.

The skipper replied that another vessel had rammed into the side of the Exmouth, tearing a 10-foot hole in the ship's side. Two feet of the hole were below the water line and large quantities of water poured into the number two hold.

The skipper said the Exmouth, owned by the American Export Lines, would be able to make port at Philadelphia without Coast Guard aid despite the shipped water. Meanwhile the vessel lay off the coast waiting for the fog to lift.

Asked about the other ship in the collision, the skipper of the Exmouth replied that the other vessel disappeared after the crash without making any contact with the Exmouth.

Hoover Calls Governmental Reform 'Must'

WASHINGTON, June 5—(AP)—Reform in the government is "absolutely essential" to military preparedness and a bulwark against depression, former President Herbert Hoover said today.

Hoover, chairman of the bipartisan commission on federal reorganization, asserted also that the entry of government into some fields of business has become very dangerous.

"We are on the road of socializing the electric power industry of the United States," he said.

The former president spoke on a radio interview arranged by the Gannett newspapers and broadcast over six Gannett radio stations in New York, Connecticut and Illinois.

"Partisan Attacks"—Meanwhile the democratic national committee issued a statement charging that Hoover and his reform proposals are being "used" by some republican congress members, in radio interviews, as the basis for partisan attacks on the administration.

Senator J. Howard McGrath (R-I), democratic national chairman, said Hoover has limited his remarks to a "perfectly proper" and factual discussion of reform and economy, but the republican legislators have turned the interviews into "wild" and "violent" charges of "so-called waste and extravagance" by the party in power.

Raps Public Power—But he noted that the government has set up power plants as a by-product of water conservation in at least 195 places. Each of these is being used as an expansion of governmental power, he said, adding:

"One effect of this has been to stifle private company development. Generally, it is proceeding on what I view as very dangerous lines."

Government reform which ultimately can save taxpayers upwards of \$3,000,000,000 a year, he declared, is "one of the best protections against recession that there is."

Bandits Refund Victim's 'Traveling Expenses'

BANGKOK, June 5—(AP)—Two youthful Siamese bandits dressed in blue and posing as passengers on a train suddenly pulled out revolvers and took 10,000 ticals in cash and jewelry from passengers. One of them after taking jewelry from a pretty girl returned her a five tical note for travelling expenses.

Doctors Hear Truman Health Bill Attacked

ATLANTIC CITY, N. J., June 5—(AP)—U. S. Senator John L. McClellan (D-Ark) said tonight President Truman's national health program would cost the nation "not less than \$12,000,000,000 to \$15,000,000,000 annually and possibly a great deal more."

McClellan addressed the national conference of county medical society officers, which met on the eve of the 98th annual convention of the American Medical Association.

On the same program, Clem Whitaker of Chicago, director of the AMA's National Education campaign, said a "grass roots crusade" is under way by the medical profession to defeat President Truman's proposal.

"Evil in Concept"—McClellan said the national health program "is evil in concept" and it will become cruel in practice.

He said: "If this compulsory health insurance program is enacted into law along with some 10 or 12 other proposals that are now pending, we can expect within five years after their enactment that the cost of operating the federal government will be at least \$60,000,000,000 annually."

McClellan said the cost would be approximately \$20,000,000,000 more than the present federal budget.

Would Destroy System—"In my judgment that much additional taxation, whether taken from payrolls or otherwise, would be confiscatory and would destroy our free enterprise system," he said.

Whitaker called on the nation's 200,000 doctors to talk "to their friends and patients—and doctor's tradesmen and all the people with whom they come in contact."

He said his organization planned distribution of pamphlets on a national basis, addressed to civic and neighborhood clubs and newspaper and radio advertising.

"This is a showdown battle in the war between Americanism and statism," Whitaker said.

The first machine to make barbed wire was patented in 1874.

PAPAL GUARD RECRUITS—Two new recruits for the Swiss Guards (left) at Vatican City, don their uniforms in the organization that has been guarding the Popes since 1506.

Fire Fatal to 5 Children in Pennsylvania

HAZLETON, Pa., June 5—(AP)—A fire that roared through a west Hazleton home early today killed five small children and critically injured three other persons.

Firemen fought the flames for 45 minutes before bringing them under control. Three of the fire fighters were hurt.

When they could get inside the burned out structure, they found five brothers huddled together in a tiny bedroom. The coroner's office said death was due to asphyxiation and third degree burns.

The dead children, all sons of Steven Gaizick, a hard coal miner were identified as Joseph, 11; Richard, 5; Leo, 3; Thomas, 2, and Donald, 6 months.

One of the brothers lay face down on the floor between the two beds in the room. On each of the beds were two boys, clinging to each other in death.

The fingers of six-month-old Donald remained tightly clutching a nipples soda pop bottle containing milk.

Injured critically were Gaizick, his wife and another son, Robert, seven. The Gaizick couple had 14 children.

The fire apparently started in the kitchen after all the members of the family were asleep. There was no indication of what started the blaze.

Late Sports Salem Legion Tips Mt. Angel

MT. ANGEL, June 5—(Special) Salem's American Legion entry scored six runs on three hits and some fancy base-running to whip Mt. Angel in a Legion opener here this afternoon, 6 to 2.

Bill Hauptaska's crew opened the scoring in the first on an error, passed ball, an out and a single by Bill Johnson. Mt. Angel countered in a tally in their half, but Salem went ahead on two runs in the second. Jones hit, stole second, moved to third on a passed ball and Sloan scored via the catchers miscue for the second.

Salem added two more on a walk, hit basemen, and error and a sacrifice. Again it was Jones and Sloan crossing the plate. Sloan walked in the sixth, stole second, moved to third on a sacrifice and then stole home to give Salem the final count.

Jim Rock went the route for Salem, giving up five hits.

R H E
Salem 120 201 0 6 3 2
Mt. Angel 110 000 0 2 5 4

Poland Boosts '49 Coal Output

KATOWICE, Poland, June 5—(AP) Poland's coal miners expect to turn out around 75,000,000 tons this year. The 1949 target is 74,000,000. That would be an increase of about 14,000,000 over 1948.

Additionally, coal miners have pledged themselves to exceed production targets assigned to them. They expect to produce 1,500,000 tons of coal above their "norms".

All through the coal industry, the ministry of mining and power is encouraging "work races".

That means champion miners are vying against each other to see who can produce the most coal. Thus far this year, a total of 600 miners are reported to have exceeded their targets by 151 to 400 per cent.

Poland exported 26,000,000 tons of coal in 1948. Exports are expected to top 30,000,000 this year.

INDUSTRIAL SCHEDULE

Six games are on tap this week for Industrial League softballers with the Papermakers leading off at 6:30 Monday night against the Naval Reserve. Warner Motors meets Post Office at 6:30 p.m. Tuesday; Clear Lake and Naval Reserve tangle at the same time Wednesday and Labish and Interstate Tractor vie in a 8:30 p.m. encounter. Teamsters and Warners meet and 6:30 p.m. Thursday and Interstate Tractor vs Papermakers completes the schedule Friday at 6:30 p.m.

County Health Office Calendar Lists Clinics

The schedule of activities for this week announced by the Marion county health department is as follows:
