

Lie Advances Economy Plan To Aid Backward Governments

LAKE SUCCESS, June 16—(AP)—U. N. Secretary-General Trygve Lie tonight advanced a three-point program for increasing the flow of foreign investments into economically backward countries.

The main provisions:

1. Tax relief — the elimination of discriminatory taxation and possibly the granting of preferential tax treatment.
2. Fair treatment of foreign investors.
3. Guarantees that investors could transfer their earnings outside the country if, and when, they desire.

Lie's proposals were worked out in consultation with several specialized agencies of the U. N., including the international bank, the international monetary fund and the food and agricultural organization.

The report grew out of President Truman's "bold new program" outlined in his inaugural address last January. Another report was submitted by Lie recently on the question of providing technical assistance to backward countries.

In an annex to Lie's new report, the food and agricultural organization (FAO) estimated that the underdeveloped countries of the world would need at least \$4,000,000,000 a year in international funds for the next four years to carry out their \$17,000,000,000 development plans.

The conference earlier was told that Methodist Sunday Schools are growing as fast as the population.

An increase of 10,893 Sunday members — 41 per cent — has occurred in the last four years. The church group set a goal of a 100 per cent increase within the next four years.

Contributions by the 160 Oregon churches totaled \$1,391,551 during the year — an increase of \$147,870.

Both Ministers Lose In Fight Over Right Perform Marriage

ROCKPORT, Mo., June 16—(AP)—An argument between two preachers over who was going to perform a marriage ceremony led to a one-blow fight with a bloody nose for one minister and a \$25 fine for the other.

A third minister performed the ceremony. The story came out today after the Rev. Kenneth J. Bressler of the Fairfax, Mo., Methodist church had been fined by Magistrate S. F. Weir on a plea of guilty to a charge of common assault.

The complaining witness was the Rev. Ellis J. Hough of Kansas City. He charged he suffered a bloody nose. He is still wearing a heavy bandage on it.

The trouble occurred last Sunday, they said, shortly before a wedding was to be performed in Bressler's church.

The groom, James Richard Shoemann, had asked Hough to perform the ceremony.

The bride, Miss Wilma Jacqueline Wright of Fairfax, a Methodist, wanted the ceremony held in her church. The couple agreed Hough should read the service but in Bressler's church.

Hough sent a letter to Bressler asking permission to read the ceremony.

"I received a rather vituperative letter from him," Hough said. "He

Jobless Pay To Increase Under New Schedule

State unemployment benefits will come bigger and on a new base after July 4.

Unemployment compensation officials called attention to this Thursday as they prepared for the start of a new "benefit year." In Marion county an estimated 1,200 persons are now drawing jobless checks. How many will come under the new payment plan next month is uncertain because of the many seasonal jobs now opening up.

Jobless persons who have drawn the maximum benefits during the past year now may be able to claim compensation again if new wage credits accrue to them. The 1949-50 benefit year uses as a basis the wages unemployed claimants of the past year have drawn against their 1947 wage credits.

Filing for the new benefits will begin as early as June 26 for those who have not been drawing checks because their wage credits were exhausted.

The new schedule, passed by the last legislature, allows maximum benefits of \$25 for 26 weeks for those who earned \$2,600, or more in covered employment during 1948. For those who received between \$1,600 and \$2,000, payments will be \$20 to \$25 for 20 to 26 weeks.

Many Claims Invalid About one in eight of the 100,000 compensation claims filed with the state unemployment compensation commission during the current benefit year were invalid and as many more not compensable, commission officials announced.

For those receiving payments, average duration of insured employment is approximately 11 weeks, longest for any year since 1946. The number of claimants is about the same as in 1948 and 1946.
