## Expert or Amateur

### Barbecues, Once Done Exclusively By Experts Now Amateur's Pride

By Maxine Burnn  
Statesman Women's Editor

There's a good deal of meat barbecuing going on these summer days, and most persons conduct their activities blind, without much knowledge of the methods or meats used.

The practice is an old one, probably dating back to the times when whole animals were roasted for hours over glowing coals. Some professionals still remain to carry on the traditions of preparing the feast. These men buy sides of beef, fasted each side to long poles which rest on props over a bed of live coals. The trick is to replenish the coals from a secondary fire so there are no flames or smoke.

The beef is roasted for 12 hours and turned every half hour. The meat is carved and served with a sour-spicy sauce made with vinegar, catsup, garlic, onions and black pepper.

The second type barbecue is done in a pit. Modern experts put 15 to 20 pound chunks of boned beef in a parchment paper and muslin wrapper. Into pits 3 feet deep are poured a 1 1/2 foot layer of live coals from burning hardwood. Two inches of sand are put on top of the coals and then the bundles of meat added. Metal covers are put on the pit and beef is added for insulation. After 12 to 14 hours the meat is cooked tender and juicy.

We've done salmon in much the same way at the beach using seaweed for wrapping and salt water to form quick steam.

The novice does his meat barbecuing in a different way. One inch thick club steaks, sirloin or cubed steaks are the most popular of the meats.

Cooks use improvised or specially made grills to hold the meat over the coals. The trick is to prepare a zesty sauce and dab the surface of the meat at frequent intervals. A new paint brush or a duster made with a piece of cloth on the end of a stick serves for putting on the sauce.

Though the amateurs usually set the meat close to the coals, those who know best recommend that it be at a two-foot distance, and left for an hour to cook slowly.

Drawn whole young chickens, broiled and rolled beef, lamb or pork roasts, spareribs or ham are

## Salem Man Weds in South

Morton of San Mateo, Calif. The nuptials took place on June 17 at St. Paul's Episcopal church in Burlingame at 2:30 o'clock with a reception following at the Morton home.

The bride, who was given in marriage by her father, wore a gown of white marquisette, styled with full tucks at the bodice and a full skirt with a train. A halo of fresh white delphinium held her veil of French illusion and she carried an arrangement of white delphinium and baby's breath.

In summery frocks of white marquisette were the five attendants who preceded the bride down the aisle. Mary Jo Van Hoesen was the maid of honor and bridesmaids were Celeste O'Neill, Jean Herbert, Charyl Gibson and Mrs. Dale MacLellan. They carried corn flowers, daisies and baby roses accented by blue ribbons. Their crowns were of white daisies.

Edward Koesterman, formerly of Salem, stood with the bridegroom as best man. Guests were seated by Robert G. and Carroll Morton, Jr. and Edwin Cott.

The bride's mother was gowned in an ice blue sheer crepe, with which she wore matching shoes and a hat of varied shades of violet. Her delphinium corsage was of the same shade as her headdress. Mrs. William Sparrow went south for her son's wedding. Her outfit was of navy blue.

Before the bride left for her honeymoon to Tahoe, she changed into a suit designed with a pale yellow flannel jacket and a cocoa brown gabardine skirt. The new Mr. and Mrs. Sparrow will reside in Westwood after their wedding trip.

The bride attended Willamette university and her sorority is Phi Beta Phi. She has been attending Pomona college the past year. Mr. Sparrow is a graduate of Willamette and a member of Phi Delta Theta fraternity. He has been taking graduate work at the University of Southern California.
