

Kitchen Cans For Busy Housewives

Salem housewives have the opportunity to do their canning without spending hours over a hot stove due to new facilities provided by the Blundell Kanning Kitchen, a custom cannery, located at S. 13th and Wilbur streets. Customers bring in their fruits or vegetables and prepare them as Mrs. Charles Paeth, (upper right), 845 Bellevue ave., is doing with her pie cherries at one of the sinks. Mrs. Johanna C. Perry, (upper left), demonstrates the packing of the tins and sugaring of royal ann cherries which she is going to send to relatives in Minnesota. After packing the product the customer registers and is given a number which she links on lids, then leaves the rest of the canning to employees, coming back later for the canned goods. Large photo (bottom) shows cookers at left and Roger Gebauer, 1335 Cross st., left, and Ronald Blundell, owner, sealing the cans. (Statesman photos.)

Tucker Stock Denied Sale In Oregon Early

Oregon was one of the first states to deny the Tucker corporation permission to sell its stock in this state, Maurice Hudson, state corporation commissioner, announced here Wednesday.

Hudson said he notified the Tucker corporation on July 10, 1947, that the Oregon Corporation commission must deny its application. The Tucker corporation, according to Hudson, had applied to sell \$300,000 worth of stock to Oregon residents, or 60,000 shares at \$500 per share.

The Oregon decision, according to Hudson, was based upon an examination of the report of the Securities and Exchange commission, from which it was concluded that the sale of Tucker corporation stock in this state would not be fair and equitable for Oregon investors.

Head of the corporation is now under indictment in connection with the sale of stock.

Record Number Of Degrees Given By State Schools

More degrees were granted by Oregon schools of higher education during the past scholastic year than ever before in the state's history.

Despite an enrollment decline, Comptroller H. A. Bork predicts even larger graduating classes next year when the bulk of the veterans will finish.

This year 3,183 degrees and 177 certificates were granted in Oregon, compared to 2,575 degrees and 249 certificates in 1946.

The University of Oregon granted 1,538 degrees and 11 certificates, while Oregon State college awarded 1,542 degrees.

Bachelor of science degrees numbered 46 at Southern Oregon College of Education, Ashland; 30 at Oregon College of Education, Monmouth; and 29 at Eastern Oregon College of Education, La Grande.

There are more than 8,000 scheduled mail trains every day in the United States.

Farm Visitors From Other Lands Greeted

Seventy representatives of the International Federation of Agricultural Producers received tubs of Royal Anne cherries and travel folders in a 20-minute leg-stretching stop-over in Salem Wednesday.

countries were represented, including France, England, Netherlands and Germany.

The Salem welcome was by members of the chamber of commerce, Cherrians and the Cherryland Festival association.
