

HOW'S THAT AGAIN?

Wheat, Rye Sales Leave

CHICAGO, June 30 (AP)—A late sell-off in wheat and rye left the grain market with a ragged appearance today. Rye ended with losses extending to more than 4 cents, July losing the most, while early gains in wheat were completely wiped out.

Some rains in the spring wheat and rye territory of both the American northwest and Canada caused part of the selling.

Wheat closed 3/4-1 1/4 lower, corn was 1/4 lower to 3/4 higher, oats were 2 1/2-4 1/2 lower, soybeans were unchanged to 1/2 higher, and lard was 10 cents lower to 5 cents a hundred pounds higher.

The wheat market started out strong on a rush of buying orders. This mainly resulted from announcement of June 15 parity at \$2.17 a bushel, unchanged from the previous month.

Advancing prices in the futures pit were helped along by gains in the cash grain. Prices here advanced about 2 cents. Hard wheat was 1/2 to 3/4 cents higher at Kansas City. Estimates that deterioration will cut about 25,000,000 bushels off the spring wheat crop added to the bullish spirit.

Stock Market Rises Slowly

NEW YORK, June 30 (AP)—A painfully slow advance carried through in the stock market today for the second day running.

Buying interest never got beyond the lukewarm stage but it was enough to lift prices fractions to around a point.

The laborious upward movement, which had its periods of shakiness during the day, showed signs of faltering toward the close.

More individual issues appeared on the ticker tape today than shares changed hands, against 590,000 Wednesday.

The Associated Press average of 60 stocks advanced .3 of one point to 59.9. Of the 922 stocks traded, 480 improved and 174 declined.

A human being transferred to the planet Mercury would be killed by its ultra-violet radiation, asphyxiated from want of oxygen and desiccated from want of water.
