## **Teachers Split** On Red Issue At Convention

BOSTON, July 5 -(P)- One teacher charged another with membership in what he called 'a communist party-line organiza-tion" today and that touched off the first open rumpus on communism at the convention of the National Education association.

There were indications that there might be more when the same question goes before a gen-eral session of 5,000 delegates and associates Wednesday.

Today's verbal clash came at a separate meeting of about 300 teachers considering the recent NEA educational policies commission statement against communism. That statement, whose comakers included Gen. Eisenhower and Harvard President Conant, called for a ban on communist party members as American

Principals in the tilt were Rose Russell, legislative representative New York City, and commission chairman John K. Norton of Columbia university's teachers col-

lege.
Miss Russell called the com-

munist report "ill-conteived, fil-timed and ill-omened." She said Kai-shek Asks it would "continue the cold war and start a witch-hunt." She charged the report erred in trying to make education "an instrument Aid to Fight On Red Tide

of national policy."
As she finished, Chairman Norton told the teachers that the lady they had just heard "represents an organication which has consistently followed the communist party line."

Replying to Norton's charge, Miss Russell said: "This is good example of guilt by association.

Every organization that is militant or dissents is called abversive in one way or another."

Idaho, Oregon Reach Accord On New Spans

An agreement for new bridge crossings over the Snake river has been signed by the Oregon and Idaho state highway departments, State Highway Engineer R. H.

Baldock announced Tuesday. The agreement calls for immediate construction of new bridges at Weiser and Payette and for widening or replacement of bridges at Ontario and Nyssa with Oregon to decide when actual construction operations shall be-

Idaho will make foundation tests for the Weiser bridge and Oregon will prepare designs and specifications. All costs will be split between the two states.

For the Payette bridge, Oregon will make the foundation tests and prepare the designs. Contracts will be awarded jointly with federal aid funds used on all four bridges, Ealdock said. Construction of the Ontario and

spreading communist movement is to dominate the entire world?"

Nyssa bridges may be delayed for some time as neither highway commission has taken action on setting a date. Baldock said the Payette and Weiser bridges are the most critical because the pres-ent structures are inadequate for current truck loads.

## Census Starts On Business In Salem Area

Retail, wholesale and service establishments are coming in for questioning these days in con-nection with a federal census which started in Salem Tuesday. Carl J. Gilson of Portland, dist-

lict supervisor, who was in Salem Tuesday, said the census probably would take two or three weeks. Assisting him are Mrs. Maxine Kent, John Overby and Mrs. Harriett Smithson.

Census-takers will be at special desk in the lobby of the Marion hotel from 3 to 5 p.m. Mondays through Fridays until the census is completed. Persons with questions may bring them there, Gilson said.

The average questionnaire will take less than 10 minutes to complete, Gilson said. Information sought includes payroll data, number of employes, lines of merchandise sold, gross receipts and type of ownership involved.

A similar census for manufacturing was taken two years ago. The federal population census will start next April.

### Four Corners Clubs Plan for Carnival

The Four Corners Home Extension Unit and the Rickey Garden club will have the food concession at the third annual benefit carnival sponsored by the Four Corners Community Center Associa-tion on July 15-16-17.

Guest speaker at the Rickey Garden club on Thursday, July 7, 8 p. m. will be Raymond Warren, president of the Salem Men's Garden club. His topic will be "Roses." Hostesses will be Mrs. L. J. Stewart, Mrs. Oliver Rickman, Mrs. Everett Smith, Mrs. E. M. White, and Mrs. Harold Snook.

It takes 11 lambs to supply the "cat gut" for a single tennis raquet.

## RUSTED IN ORDINARY GASOLINE

This steel rod is heavily coated with rust after special 48-hour laboratory test in ordinary gasoline containing a small amount of added water. Rust also attacks the gasoline tank and fuel system

### PROTECTED IN RICHFIELD GASOLINE

Rod shows no sign of rust after an identical 48-hour laboratory test in Richfield gasoline containing amazing RD-119 Before test, the same amount of water was added to prove conclusively the superior protection you get with Richfield Rust-Proof gasoline. rust-proof gasoline contains amazing Sinclair RD-119

# SEE THIS SENSATIONAL PROOF AT YOUR RICHFIELD STATION

Ask your Richfield dealer to show you this visual proof of how new Richfield Rust-Proof gasolines with RD-119 protect the fuel system of your car from being strangled by rust!

Again Richfield is first with a "Years Ahead" development in gasoline! Richfield gasoline-with amazing RD-119-STOPS rust and corrosion in your car's vital "rust zone."

What causes rust? Rust and corrosion result from moisture in your gasoline, caused largely by condensation.

What damage does rust do? 1. Rust ruins gasoline tanks and other fuel system parts, causing costly repairs and replacements ... 2. Rust clogs fuel lines, screens and carburetor jets, causing rough idling, poor mileage and loss of power and performance...3. Rust particles cause wear on precision parts in fuel pump and carburetor, causing frequent costly overhauls and replacements.

How does RD-119 prevent rust? It coats the inside of your car's fuel system with an invisible, polymolecular protective layer that prevents rust.

Protect your car! Fill up with Richfield - the only Rust-Proof gasoline -

Costs no more than ordinary gasoline
