

Sheriff Returns Pair to Face Robbery Count

Two men who were apprehended near Red Bluff, Calif. Sunday were returned to Salem Wednesday night to face charges of armed robbery. They will be arraigned in Marion county District court at 10 a. m. today.

The pair, James B. Rich, 20, Bakerville, Calif., and Norman Betts, 21, Newcastle, Calif., were returned by Marion County Sheriff Denver Young and Deputy William DeVoll. They were held at Marion county jail. Bail was set at \$5,500 each.

The charge they face involves a Rieckle man who was robbed and left bound and gagged north of Albany last Friday. Two girls from Bend, Ore., who told California authorities they had kidnapped provided the tip that led to apprehension of Rich and Betts.

Barkley States Luxury Tax End Possible

CHICAGO, July 27 (AP)—Vice President Barkley said tonight proposals to wipe out the 20 per cent excise tax on so-called luxury items are getting attention from "everybody in government," including President Truman.

"I'm not saying this session of congress will act — but it is possible," he said.

The tax on jewelry, furs, toiletries, luggage and similar items was slapped on during the war. The president, he said, "is just as anxious to eliminate the wartime excise taxes as anyone."

"I don't know when they will be reduced or eliminated, but as soon as it can be done in fairness to everyone — the industry, the people and the nation — it will be done."

Dundee Voids Local Option

DUNDEE, July 27 (AP)—Dundee won't have a state liquor store. In a special election yesterday, voters turned down a proposal to legalize liquor sales by a 63 to 44 margin. They approved, however, another measure changing Dundee from a township to a municipality.

Beer is sold here, but the community has never had a state liquor store.

For The Ladies:
A Diet That Really Works

We went out visiting the other night and the ladies were talking away about weight-reducing diets. One of them had a special "15-day Hollywood diet" guaranteed to slim her down fifteen pounds or more. Another was living on bananas and skim milk!

I might have known the missus would get the bug, too, and sure enough the other day she asks me, "Joe, what kind of a diet do you think I ought to go on?"

"Mother," I says, "the only diet I would ever recommend to anyone is simply moderation. I wouldn't

trust any of those get-thin-quick diets. Simply cut down on desserts, bread, butter, sweets and fats — but when you do, even do your cutting down moderately."

From where I sit, moderation is the watchword. Moderation with food, with smoking or with the enjoyment of a friendly glass of temperate beer or ale. Actually, moderation adds to the enjoyment of just about anything.

Congress Allowed Time Extension

WASHINGTON, July 27 (AP)—Congress was informed officially today that it doesn't have to go home by July 31. Few members had expected to.

The latest word on adjournment came from House Speaker Sam Rayburn of Texas. He said the congressional reorganization act of 1946 doesn't bind this congress to close up at the end of the month. The act, which fixed July 31 as the annual adjournment date except in time of war or other emergency, is not binding because the country is still technically at war, he said.

Prize-Winning Bugle Corps to Vie in Contest

LaGrande's post 43 drum and bugle corps, last year's winner at the Oregon state American Legion convention, will come to Salem to defend its laurels August 4, convention headquarters announced.

Others who will compete for the Clifford Brown rotating trophy and \$175 in cash prizes are Tillamook post 47, Astoria post 12, and Portland post 1.

Special features will augment this year's contest, to be staged at Sweetland field. The official Legion band from Musicians' post in Portland will appear as will the bagpipe playing Kilty band from Ashland post 14. Members of Hillsboro post 6 auxiliary drill team will perform costumed as a Turkish harem.

The competition will be for the public as well as convention delegates.

Congress Assured Truman to Keep Lid on A-Secrets

WASHINGTON, July 27 (AP)—Congress received official assurance today that President Truman won't give a-bomb designs and production methods to Britain unless the lawmakers support the idea.

At the same time it was advised that the administration plans to carry on "exploratory discussions" with the British and Canadians.

Secretary of State Acheson promised the senate-house committee on atomic energy that no agreement will be concluded and no change whatsoever in existing arrangements will be made until the results of these talks have been discussed with the committee.

Fishing Boats In Trouble Off Oregon Coast

SEATTLE, July 27 (AP)—One fishing vessel sank on the Oregon coast today, another developed engine trouble and a third got lost, missed the mouth of the Columbia by 175 miles and wound up in Canada.

The Missionary, 45-foot tuna boat, was lost twice in as many days, the Coast Guard reported. Outward bound on its maiden voyage, it appealed for aid and was located at anchor behind Tillamook light.

Last night a Coast Guard PB at Port Angeles heard from the same boat—lost again—and found it just three miles from Vancouver Island, B.C. The plane dropped charts marking a course for the craft to Neah Bay, Wash. When it docked, the Coast Guard found the trouble was due to "inexperience and lack of knowledge of compass deviation."

A one-man fishing craft skippered by John Oja of Ilwaco, Wash., hit a log and sank on the Yaquina Bay bar on the Oregon coast. Oja was rescued by the trawler May Jane.

The 45-foot schooner Christy, of Astoria, advised the Coast Guard by radio it was disabled by carburetor trouble 90 miles southwest of Grays Harbor. A cutter was sent to its assistance.

Seamstresses Strike in Paris

PARIS, July 27 (AP)—A strike of 17,000 seamstresses in the most famous dressmaker shops of Paris threatened tonight to upset the annual fall fashion showings. The shows are scheduled to start next week.

Women shop workers are seeking higher wages and other benefits. They say their requested salary scale ranges from 135 francs (about 40 cents) an hour for skilled tailors, down to 28 francs (about nine cents) an hour for first-year apprentices.

Employers say this would be about a 30 per cent increase.

Plans Studied for \$4 Million Medical School Hospital

PORTLAND, July 27 (AP)—Preliminary engineering studies for a proposed \$4,000,000 University of Oregon medical school hospital probably will be presented to the state board of higher education in September.

The hospital would treat obscure ailments and provide training for medical students.

The medical school has about \$1,700,000 available for construction, and hopes to be granted more by the 1951 legislature.

GBS Calls Stalin Mainstay of Peace

LONDON, July 27 (AP)—George Bernard Shaw described Prime Minister Stalin of Russia tonight as "the mainstay of peace in Europe" and charged that the western powers' commanders in Berlin started the cold war.

Huge Map Is Planners' Project

Piecing together sections for an eight by nine-foot map can be quite a job, as C. A. McClure, left, and Walter Hartley, engineer and designer for the Salem long range planning commission discover above. The map covers Salem and 360 square miles of surrounding territory. (Statesman photo.)

8 by 9-Foot Map to Show Detail Of Salem, Surrounding Area

Four years of researching, drafting and revising has resulted in a new map of Salem and surrounding area now being finished by technicians of the long range planning commission. When completed the map will measure eight by nine feet with a scale of 1,000 feet to the inch.

Roads, schools, public lands, lakes, creeks and all pertinent geographical features of an area extending from the edge of Independence on the southwest to Aumsville at the southeast corner; and into the Mission Bottom area above Keizer in the northwest and a point one and a half miles west of Silverton. In all, more than 360 square miles of the land surrounding Salem is included on the map. As it is being assembled this week, the eight by nine foot map is up to date as of June.

Information for compiling data and drawing the nine section map was secured from Marion and Polk county records, much of it from old maps. An interesting point in this connection is that many of the old pioneer names of some streams and locations have been included in the map.

A copy of the map will be made for display at the first luncheon of the Salem Chamber of Commerce this fall.

Rent Control Test Ordered

CHICAGO, July 27 (AP)—Despite an earlier district court opinion that the 1949 rent law is unconstitutional, a second test of the law was ordered today.

Federal District Judge Walter J. Labuy set September 12 for hearing of a suit by a three-judge panel. Today he dismissed a government motion to quash the suit by 20 landlords.

Last Monday District Judge Elwyn R. Shaw held that the 1949 law's local option clause illegally delegates the war powers of congress to states and municipalities, and therefore makes the whole law invalid.

Mrs. FDR, in Reply, Cites Need To Keep Church, State Separate

HYDE PARK, N. J., July 27 (AP)—Mrs. Franklin D. Roosevelt, accused by Francis Cardinal Spellman of anti-catholic bias "unworthy of an American mother," told the prelate today that God is the final judge of a human being's worth.

She said she holds no bias against the catholic church and that she will continue to speak out for the things she believes are right.

Mrs. Roosevelt sent the cardinal a point-by-point reply to last Friday's letter in which he assailed her opposition to the use of federal funds to aid church or private schools.

"Spiritual leadership," Mrs. Roosevelt told the churchman, "should remain spiritual leadership and the temporal power should not become too important in any church."

Her letter continued: "I have no intention of attacking you personally, nor of attacking the Roman Catholic church, but I shall, of course, continue to stand for the things in our government which I think are right."

"I assure you that I have no sense of being an 'unworthy American mother.' The final judgment, my dear Cardinal Spellman, of the worthiness of all human beings is in the hands of God."

Mrs. Roosevelt declared that domination of education or of government by any one religious faith is never a happy arrangement for the people.

And she said control "by the Roman Catholic church of great areas of land" in Europe has not always "led to happiness for the people of those countries."

Hoover Charges 'Empire Builders' Block Program

CHICAGO, July 27 (AP)—Former President Herbert Hoover today charged "bureaucratic empire builders" with obstructing recommendations which a commission bearing his name has made to simplify the executive branch of the federal government.

In a telegram to Ralph Rowley, vice president of the United States Junior Chamber of Commerce here, Hoover said: "These recommendations of drastic reforms are opposed by many bureaucratic empire builders. It is only the citizens who can stop such obstructionism."

The junior chamber of commerce is trying to promote nationwide support of the commission's recommendations.

Letter Checks Welfare State Qualifications

OLYMPIA, Wash., July 27 (AP)—The Washington department of social security released a letter addressed to the governor from a person giving his address as Toledo, Ohio. It said:

"Dear Sir: "I understand that the state of Washington pays more to people on relief than the average worker receives in wages.

"Please advise what residence requirements are needed in your state before unemployment relief can be claimed.

"I would like to quit my present job and come out to Washington to enjoy the full benefits of your system.

"I have several friends who are also interested, so your prompt reply will be sincerely appreciated."

In releasing the letter, a department spokesman asked that the sender's name be omitted.

Neither Governor Langlie nor Roderic Olendarn, director of social security, was available to comment on the reply they may send.
